PIG PIG MAT TRIED. TESTED. TRUSTED.

MAT240

Some mat brands cut corners to save costs, but PIG Mat keeps it real.

These days, many brands are dabbling in the dark art of *shrinkflation*. That's when companies reduce the size and/or quality of their products on the sly. But New Pig doesn't do that! PIG Mat is tested and validated in our Absorbatory as well as by our customers in real-world applications, so you can always count on it to do what we say it will do.

CONSISTENT PRODUCTION

avoids lumps, flecks and voids from lines that are run too fast

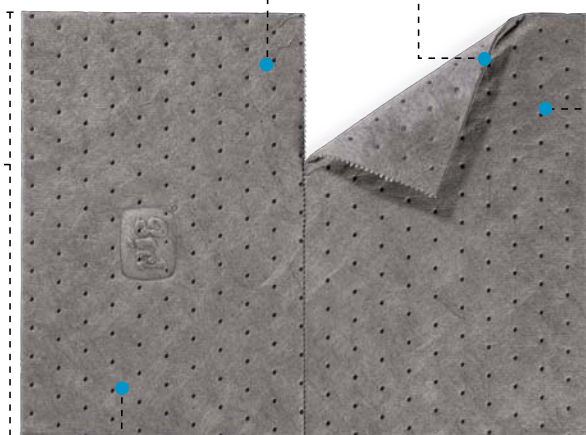

TRUE WEIGHT

never overlofted to make stacks look thicker

Our **MAT SIZE** HASN'T CHANGED in 16 years (best-selling MAT240)

Always the **HIGHEST QUALITY** resins — no cheap substitutes or fillers

Published specs like size, weight and absorbency are **REAL-WORLD ACCURATE**

See the inside back cover to learn more.

Throwback:

Life's a beach when you have PIG Products to clean up liquid messes at your workplace!

"So happy with this purchase. This mat absorbs almost anything that spills. Oil, brake fluid, transmission fluid, antifreeze, etc. Wish I bought them sooner."

— Marshall, MAT240 Customer

NEW! PRODUCT SPOTLIGHT

WIP450

PIG SHOPREADY DISPOSABLE MICROFIBER WIPERS

We've never met a tougher microfiber wiper!

Engineered for superior durability in rough scrubbing and heavy-duty tasks, wet or dry. The perforated roll allows you to tear off single or multiple sheets to customize sizes, and they're available in four colors for color-coding the different processes at your workplace.

SEE PAGE N13

WE PIG PROMISE TO KEEP CUSTOMERS HAPPY!

Helpful Service — Get through to real people, really fast!

At New Pig, you'll never have to wade through phone menus or repeat yourself five times to a voice recognition robot. From our offices in Tipton, PA, an actual human being says *Hello* and asks how we can help! 96% of calls are answered within 3 rings and 99% of chats connect within 9 seconds.

Reliable Shipping — We bust our tails to deliver your stuff.

Thanks to our speedy warehouse crew and massive in-stock inventory, your order is shipped as fast as humanly possible. And when you order using Autoship, you'll never run out of your favorite PIG products! (newpig.com/autoship)

Risk-Free Shopping — Every penny back. No strings attached.

We stand behind 100% of our products, 100% of the time. So if you buy something and it's just not working out, we'll refund every single penny, including taxes and freight. We'll even schedule and pay for the return shipping!

ABSORBENTS

THE BEST ALL-AROUND SINCE 1985.

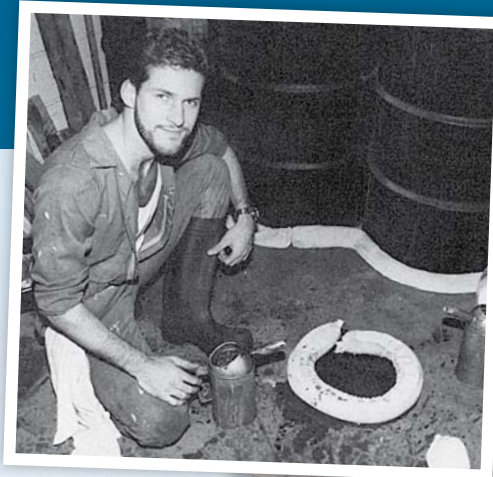

Chris I.
— Director
of Product
Operations

World's first sock: The PIG that launched an industry.

In the early '80s, our founders were working hard cleaning up grease and grime in dirty factories. The worst job was shoveling up the loose, oil-soaked cat litter around the bases of leaking machinery. The clay pellets stuck to everything, and when they started losing money on these jobs, they set out to find a better way to soak up the mess.

They cut up pantyhose and stuffed them with everything from sawdust to rice hulls. Then they laid these sausage-shaped things into pools of oil to see what would happen, but nothing worked. Finally, they tried ground corncob, and the world's first contained absorbent was born — the PIG Original Sock!

Old-school “solutions” don’t work!

FLIMSY CARDBOARD

Slips and slides underfoot;
even when it's taped down.

HEAVY, HAZARDOUS CLAY

Makes a mess of floors,
machinery and your lungs.

CHEAP COMPETITOR MATS

Can't hold their liquids and
fall apart in tough jobs.

Choose your absorbents to fit your liquids.

Our color-coded absorbents make it easy to choose the appropriate absorbent for the type of liquid you're cleaning up.

■ UNIVERSAL

They soak up the widest range of liquids for everyday applications including oils, coolants, water and solvents.

See pages 6–13

■ WATER

PIG Water Absorbents are designed for quick-acting, higher-volume absorbency that works on contact.

See pages 14–16

■ OIL-ONLY

PIG Oil-Only Absorbents repel water, so you can clean up fuel and oil-based spills even in outdoor applications.

See pages 17–24

■ HAZMAT

PIG HazMat Absorbents are specially treated to soak up acids and bases without degrading or reacting.

See pages 25–27

IT'S THE WORLD'S #1 BRAND FOR A REASON.

PIG MAT

NEW PIG NEVER CUTS CORNERS.

MAT SIZE HASN'T CHANGED

Our most popular PIG Mat (MAT240) has been the same size for over 15 years. No shrinkflation here!

THE BEST RESINS

We always use resins that are the cream of the crop, never cheap fillers or substitutes. Garbage in equals garbage out!

TRUE WEIGHT

We never overloft to make stacks look thicker. You get the same formula every time, always 100% genuine PIG Mat.

QUALITY CONTROL

Monitoring consistency on our PIG Mat production runs avoids lumps, flecks and voids from lines that are run too fast.

REAL-WORLD ACCURATE

Published specs like size, weight and absorbency are tried and true so you know exactly what to expect from your PIG Mat.

BRAND X

OTHER MAT BRANDS GIVE YOU LESS.

SMALLER SIZES

Trimming a 15" x 20" pad down to 15" x 18" reduces surface area and material cost by 10%, giving you 10% less absorbency.

LOWER QUALITY

Using lower grades of resin and cheap fillers saves costs on their side, but performance *and* chemical compatibility are affected.

OVERLOFTING

Injecting air may reduce material costs, but those overlofted fibers underperform in absorbency and retention.

RUSHED PRODUCTION

In an effort to lower their costs, companies run lines faster than they should, creating voids, hard flecks and high lumps.

MISLEADING SPECS & CLAIMS

Product specs might have been true at one time in lab settings, but they don't reflect real-world use and applications.

PIG MAT: TRIED, TESTED & TRUSTED!

WE'VE GOT STANDARDS, YES WE DO.

Nobody beats the quality, engineering or performance of the World's #1 Mat Brand. To make sure our claims translate to real-world performance, we conduct regular testing, following strict ASTM and ISO standards. Our goal is for every PIG Mat to do what we say it will do. **If it doesn't pass these 7 tests, we don't sell it to you:**

1. BASIS WEIGHT — ASTM D3776

2. BULK (LOFT) — ASTM D1777

3. OIL/WATER CAPACITY — ASTM F726-17 and ISO 20158:2018

4. TENSILE STRENGTH — ASTM D5034

5. RECIPROCAL ABRASION — ASTM D3884-22

6. ROTARY ABRASION — ASTM D3389

7. VERTICAL WICKING — ISO 9073-6-2000

UNIVERSAL ABSORBENT MATS

The one absorbent mat to have if you only have one.

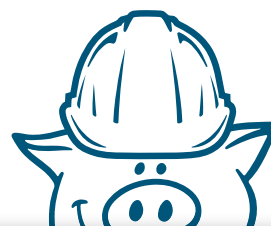

TRIED & TRUSTED

PIG Mat delivers the perfect balance of absorbency, retention and durability. When we say universal, we mean it! Our best-selling gray mat soaks up all sorts of stuff, including hydraulic oil, acetone, coolants, propylene glycol and many other noncorrosive liquids.

SAVES YOU MONEY

By staying down longer and needing fewer changeouts, PIG Mat saves you time and money. When cheaper mats can't keep up and need constant replacing, those initial "savings" go right out the window.

HELPS YOU COMPLY with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition.

**SPILL RISK
REPORT**

Our physics-based algorithm analyzes your spill risks so you can protect your people, comply with regs, and be more prepared for inspections.

NEED TO TALK
ABOUT A SOCK?
CALL OUR TECH
TEAM AT
1-800-HOT-HOGS!

Vermiculite filler quickly absorbs leaks and gives weight to the sock.

3 SIMPLE STEPS TO GET THE MOST OUT OF YOUR PIG SOCKS.

1. Clean up all loose absorbents, rags and other debris around the source of the leak. Hold each sock by its ends and shake to evenly distribute filler. This will create better surface contact.
2. Make sure your PIG Socks have direct contact with the floor and the liquid being absorbed. Don't stack socks on top of each other. When placing end-to-end, overlap them by 3".
3. If it ain't soaked, don't pitch it! Let the sock work until it's saturated. Replace the sock when you see liquid seeping out from underneath.

PLP213-1

PIG DRI LOOSE ABSORBENT

Highly absorbent granules are heavy like clay and won't blow around.

Unlike clay, which is simply coated with liquid, fast-wicking cellulose-based kaolin granules begin to soak up liquid the moment they touch the spill. 47% recycled content; silica-free composition doesn't pose the health hazards associated with breathing in clay dust. Easier than clay to carry and use without injury.

* **WARNING:** Cancer - www.P65Warnings.ca.gov

PLP201

PIG LITE-DRI LOOSE ABSORBENT

Lighter and easier to carry than clay, plus it absorbs up to 3X more!

Fast-wicking recycled cellulose soaks up the spill the moment it touches, unlike clay, which simply coats itself with liquid. Silica-free, non-abrasive composition is three times more absorbent — you'll use less material on the spill, reducing your labor and disposal costs.

PIG® MILDEW-RESISTANT WATER SOCK

Deploy long-term, air-dry and reuse!

Flexible socks absorb water from under freezers, coolers and equipment. Polypropylene skin and filler resist the growth of mildew so they can be left down long-term. To reuse, simply air-dry and redeploy or squeeze water from socks for faster results.

NOTE: Not for use in direct sunlight.

A CLOSER LOOK

PIG exclusive! Spunbond top layer adds durability. Fused natural and synthetic fibers create strength and enhance absorbency. Lofty inner core provides superabsorbency.

PIG WATER MAT

The ONE mat to stock for cleaning up water problems.

PIG Water Mat has superfast wicking that helps you quickly eliminate puddles to prevent damage, slips and falls.

Be prepared to soak up water that comes in from roof leaks and seepage through doors and docks, cracked foundations or open windows. Absorb excess water in food service, food processing and other critical areas where standing water is prevalent. And deal with water from maintenance and system breakdowns, including burst or leaking pipes, broken hoses, leaking equipment and cleanouts.

Wring and re-use during a single water spill cleanup, then dispose. Cleaner than dirty mops, rags and towels, which can recontaminate floors by spreading bacteria, mold and odors.

OIL-ONLY ABSORBENTS

Soak up oily leaks and spills without wasting absorbency on water.

PIG Oil-Only Absorbents do not absorb water. They should be your first choice for any application — indoors or out — where you need to soak up oil without wasting absorbency on water. They're perfect for any oil- or hydrocarbon-based liquids, including:

- Motor oil
- Hydraulic oil
- Cutting oil
- Diesel fuel
- Synthetic oils
- Vehicle fluids
- Vegetable fluids
- Oil-based solvents

OIL-ONLY ABSORBENTS

FLOATS ON WATER

From oily puddles in your parking lots to oil spills on bodies of water, our mats work without sinking. Even when soaked, they float!

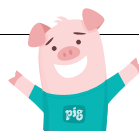

ABSORBS ONLY OIL

If you know you're only dealing with oil, don't spend more on a universal mat. Get the job done right and soak up the savings!

WORKS IN THE RAIN

These water-repellent PIG Mats are great around leaky outdoor equipment or for spill cleanups during and after rainy weather.

MAT401

OIL-ONLY MAT

Our most cost-effective mat when you only need to absorb oil.

Absorb and retain fuels and oil-based liquids without taking in a drop of water. Durable multi-layer mat repels rainwater and floats for skimming applications and cleaning up spills on water. White color draws attention to machine leaks and clearly shows saturation level during spill response.

ASK THE EXPERTS

From product support to regulatory compliance, our team is here to help you find cleaner, safer, better ways to work.

SOAKS UP FAST

Our exclusive dimple pattern speeds up the wicking of oil throughout the mat. Leak and spill cleanup is quick and easy.

HOLDS ITS LIQUID

Highly absorbent fine fibers trap oil so it doesn't pour back out when you pick up the mat. The mess is gone for good!

LASTS 2X LONGER

Multiple layers of thermally bonded polypropylene give PIG Mat superior strength and abrasion resistance.

MAT423

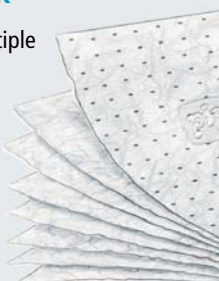

MAT440

A CLOSER LOOK

PIG exclusive! Multiple layers of thermally-bonded, melt-blown polypropylene make PIG Mat the toughest mat on the market.

PIG OIL-ONLY MAT PADS

PIG Oil-Only Mat Pads are ideal for soaking up spills on water or catching oily leaks and drips from machinery or other potential hard-to-reach areas. Our most cost-effective mat when you only need to absorb oil-based liquids.

MAT494

MAT444, MAT445 and MAT494 feature corner grommets and reinforced edges.

MAT467 and MAT492 have hook and loop closures on one side so you can easily attach sections together.

A CLOSER LOOK

PIG exclusive! Rugged top layer adds durability. Middle layer absorbs oils and fuels while bottom layer prevents them from seeping into the ground.

PIG OIL-ONLY ABSORBENT GROUND TARP

Durable mat absorbs oils and fuels, not water, in outdoor applications.

Heavy-duty, three-layer, UV-resistant mat ensures oily leaks and drips never reach the ground — perfect for outdoor equipment maintenance or storage.

Top layer is a tough geotextile fabric. Highly absorbent polypropylene middle layer traps oils and fuels but allows rainwater to evaporate, and bottom barrier film prevents liquids from leaching into the ground. Liquids absorb quickly for easier cleanup and the tarp won't rip, tear or fray, even when saturated. Material cuts easily with utility knife or scissors, plus it protects user while they're lying on the ground.

HELPS YOU COMPLY with SPCC and Stormwater Regulations

PIG STAT-MAT

The ONLY absorbent mat for fuels & solvents proven to dissipate static.

The best mat you can buy to reduce the risk of electrostatic discharge; a critical precaution around flammable liquids and vapors. Stat-Mat Pads and Rolls pass ANSI and MIL-SPEC standards for static decay and surface resistivity, making them perfect for fueling areas and solvent cleanup. Mat absorbs and retains oils and fuels — including acetone, benzene, gasoline, toluene, xylene, mineral spirits and jet fuels — but not water.

Stat-Mat is packaged in special bags that dissipate static charge buildup for sensitive environments.

HELPS YOU COMPLY with 29 CFR 1910.106(e)(6)(i) for preventing static that could ignite flammable vapors

OIL-ONLY BOOMS AT WORK

Surround spill with booms. They begin to absorb oil (not water) as soon as they're in place.

As oil is absorbed, the boom sinks in the water. Oil is now exposed to fresh absorbent.

When completely saturated, the boom will "bob" just below the water's surface.

BOM414

Dark color booms blend in and hide grime so they're barely noticeable.

★ = Best-Seller

SKM600

Floats to clean up spills on water confined by booms or socks.

If you're not happy with your New Pig purchase, we'll refund every penny, including taxes and shipping. Even the return freight is on us!

PIG SHEEN CLEAN ABSORBENTS

Clean up thin, oily residue on water that other absorbents leave behind.

Proprietary filler blends high-capacity recycled cellulose with a copolymer that pulls in thin, "rainbow" sheens of oil. Ideal for long-term deployment to remove sheen from oil spills or absorb residue in retention ponds, catch basins, tanks and more. Skin is UV resistant up to 12 months; provides long-term outdoor use without degradation.

BOM202

Spaghetti strip filler pulls in thick, petroleum-based liquids for effective spill cleanup.

PIG OIL-ONLY SPAGHETTI BOOM

Specially designed to contain and absorb thick oils on water.

Mesh skin and spaghetti strip filler pull in thick oil. Won't sink, even when saturated, and UV resistant for long-term outdoor use. Rope running along length withstands up to 400 lb. loads.

| PIG® Oil-Only Spaghetti Boom | | | | | | | |

NOTE: Spaghetti Booms not recommended for spills on land. See Oil-Only Absorbent Booms on page 23.

★ = Best-Seller

PIG LITE-DRI LOOSE ABSORBENT

Lighter and easier to carry than clay, plus it absorbs up to 3X more!

Fast-wicking recycled cellulose soaks up the spill the moment it touches, unlike clay, which simply coats itself with liquid. Silica-free, non-abrasive composition is three times more absorbent — you'll use less material on the spill, reducing your labor and disposal costs.

| PIG® Oil-Only Lite-Dri® Loose Absorbent | | | |
|--|-------------|------|------|
| Item # | Pallet Qty. | 1-9 | 10+ |
| PLP410 • 22 lb. Bag • Absorbs up to 8 gal./bag | 54 | \$42 | \$40 |

Corrosive Liquids Notice: Not recommended for acids, bases or other corrosive liquids.

HAZMAT ABSORBENTS

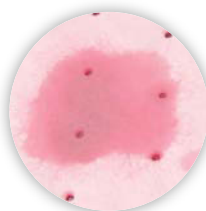

Specially treated to absorb most acids, bases, corrosives and chemicals.

■ HAZMAT ABSORBENTS

PIG HazMat Absorbents provide the widest range of chemical resistance you can buy, and they're every bit as durable as our gray PIG Mat. Nasty chemical spill? Think pink!

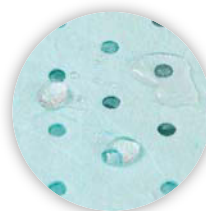

- Sulfuric acid
- Nitric acid
- Phosphoric acid
- Potassium hydroxide
- Hydrochloric acid
- Hydrofluoric acid
- Sodium hydroxide
- Hydrogen peroxide

KICKIN' ACID AND TAKIN' NAMES

OURS

PIG HazMat completely absorbs 98% sulfuric acid.

THEIRS

Highly concentrated corrosives just puddle on top.

THE PIG DIFFERENCE

Highly corrosive liquids like 98% sulfuric acid and 30% sodium hydroxide can cause inferior cellulose mats, socks and pillows to degrade or react. But PIG is specially treated to absorb the worst stuff out there, even high concentrations of corrosive chemicals.

PIG HAZMAT SOCKS, PILLOWS & LOOSE

Contain spills and clean up large volumes of acids or bases.

Spreading spills require more than a mat to control the mess. Our HazMat Socks and Dikes are great for corraling chemicals before they can get away. Once the threat is contained, clean up with our Absorbent Pillows or Loose Absorbent. Whichever product you choose, PIG HazMat Absorbents are the best you can buy for concentrated corrosives.

★ = Best-Seller

PIG HAZMAT PADS AND ROLLS

Soaks up hazardous chemicals, even highly concentrated corrosives.

Soak up the widest range of acids, bases, corrosives and chemicals — even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide. Great for use in chemical storage areas, around dip tanks, in cleaning agents used in food processing plants, in boiler rooms, labs, and R&D departments. High-viz pink color is designated for hazardous chemicals and easy to identify.

PIG ACID NEUTRALIZING ABSORBENTS

One easy step for safer acid cleanup.

Encapsulate and neutralize common acids in one step. Color changes on contact and during neutralization with liquid acids (pH below 7) and color change continues until pH becomes neutral and is safe for handling. Gelling agents solidify acids during neutralization which prevents them from leaching out of the absorbent. Acid neutralizer instantly absorbs up to 98% concentrations of sulfuric acid and other acids.

Neutralizing pillows and socks are available at newpig.com.

SPILL KITS

IT'S WHAT'S INSIDE THAT COUNTS.

Carolyn I. —
Lab Manager

Top 3 things that separate PIG Spill Kits from the pack:

- 1 World's #1 Absorbents inside**
PIG Mats, Socks, Pillows and Loose are the best you can buy — found exclusively in PIG Spill Kits.
- 2 Filled for fast response**
We pack our kits in the order you need the contents, so there's no dumping or digging required!
- 3 Biggest selection anywhere**
From UN Rated salvage drums to grab-and-go bag kits, you'll find a Spill Kit that's a perfect fit.

The supplies you need first are right on top and easy to access.

Choose a Kit based on the liquids at your facility:

UNIVERSAL

For everyday cleanup of oils, coolants, solvents and water.

Pages 30–37

OIL-ONLY

Repels water so you can absorb oils and fuels, even in rain or on water.

Pages 38–43

HAZMAT

Specially treated to soak up highly concentrated acids and bases.

Pages 44–50

WATER

Fast-acting and highly absorbent when water is all you're dealing with.

Page 16

PIG SPILL KITS HELP YOU COMPLY

SPCC 40 CFR 112.7

Facilities must have written plans and documentation of the products that are in place to prevent discharge of oil into waters.

STORMWATER 40 CFR 122.26

Facilities with an SWPPP must describe the plan and equipment available to prevent illegal discharge of pollutants into waterways.

HAZWOPER 29 CFR 1910.120 (j)(1)(vii)

Requires spill responders to have "DOT specified salvage drums or containers and suitable quantities of proper absorbents," in areas where spills may occur.

IN THIS SECTION: OVERPACKS • CADDIES • CHESTS • BAGS • BUCKETS

We have Specialty Kits for specific applications.

TRUCKS

Road-ready spill kits for cleaning up oil, gas and other vehicle fluids.

FUEL STATIONS

UV-safe containers hold static-dissipative absorbents for spilled fuel and oil.

BATTERY ACID

Stay ready with kits for cleaning up and neutralizing battery acid.

"This is a great kit ... It is worth the investment of purchasing this complete kit rather than throwing items in a box or tote. Our city inspector liked it as well and that is a PLUS!"

— Jeff, PIG Spill Kit Customer

Nobody delivers a bigger selection of containers!

OVERPACKS

UN Rated containers are perfect when you need to ship your spill cleanup waste.

MOBILE

Roll your spill response supplies right to the spill site in these containers on wheels.

GRAB-N-GO

Store these kits just about anywhere for easy access and quick transport to the spill.

SPILL KIT SUPPLIES DISAPPEARING?

If you're thinking about locking up your spill kit, maybe reconsider. Having an easily accessible kit is crucial when a spill emergency happens, but ease of access tempts workers to use those supplies for everyday use, too. Luckily, PIG has some tips on how to stop raiders and keep your kit fully stocked when you really need it.

- ✓ **Have a dispensing station for everyday absorbents**
Give workers an eye-catching alternative to opening a spill kit.
- ✓ **Secure your kits with a tamperproof seal**
Encourages employees to only break the seal for true emergencies.
- ✓ **Add signage to spill kit areas**
Lets everyone know that the supplies stored here are for spill events.

SEE PAGE 13 FOR MORE INFO ON DISPENSING STATIONS

Learn how to stop raiders from using spill kit absorbents for daily cleanups.

KIT202

KIT202

Ship leaking drums or used absorbents from a spill cleanup in our UN Rated overpacks.

KIT211

PIG SPILL KIT IN OVERPACK DRUM

Strong enough to earn a UN Rating for shipping.

Clean up spills and then ship the waste in these durable overpack salvage drums. X-rated for Packing Groups I, II, and III for shipping by land, sea or rail. Leakproof, twist-on lid is notched for easy removal or tightening with a 2x4 or pole. Molded ledges make container easy to move by forklift. Only PIG Spill Kits feature PIG Absorbents — the world's #1 brand.

HELPS YOU COMPLY with HAZWOPER 29 CFR 1910.120 (j)(1)(vii) and 40 CFR 112.7 SPCC Regulations

**OVERPACK ACCESSORIES
SOLD ON PAGE 50**

A CLOSER LOOK:

Lift-out baskets (on 50-95 gal kits) make it easy to reach the supplies you need. They also provide side protection against UV rays.

Lid insert protects against UV exposure from the top down. Keep your absorbents covered for longer life and maximum effectiveness!

KIT402

KIT402

Ship leaking drums — or used absorbents from a spill cleanup — in our UN Rated overpacks.

PAK205

Overpack protection covers sold separately on page 50.

KIT436

PIG OIL-ONLY SPILL KIT IN OVERPACK DRUM

Strong enough to earn a UN rating to ship waste after an oil spill.

Absorb fuels and oil-based liquids but repel water for quick spill cleanup, indoors or out. PIG Oil-Only Absorbents meet ANSI and MIL-SPEC standards for static decay for safer use with fuels and flammables. Overpacks are X-rated for Packing Groups I, II and III for shipping spill cleanup waste by land, sea or rail.

| Item # | Pallet Qty. | 1-2 | 3-5 | 6+ |
| KIT413 • Absorbs up to 4.5 gal. UN1H2/Y30/S | 27 | \$102 | \$100 | \$97 |
| KIT413 Contents • 2 Socks • 4 Mat Pads • 2 Disposal Bags & Ties • 6 Tamperproof Labels | | | | |

PIG UV-RESISTANT OIL-ONLY SPILL KIT

Made for outdoors — resists UV up to 12 months.

Opaque container blocks UV from degrading contents for up to 8,000 hours and all absorbents resist UV for up to one year (12 hours per day of direct exposure for 12 months), plus they float to absorb oil on water. Lift-out, prepacked baskets allow easy access to kit contents, and the overpack drum is UN rated for shipping waste after cleanup.

HELPS YOU COMPLY with 40 CFR 112.7 SPCC regulations

ATTENTION: Independent testing indicates that PIG HazMat products are compatible with and absorb most acids and bases. Due to variables and conditions of applications beyond our control, New Pig cannot guarantee that this product will absorb to your satisfaction. To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat products prior to purchase. To ensure safety when using PPE, please consult chemical compatibility guide(s) to determine if PPE is compatible with your chemicals and fluids, or ensure compatibility with chemical manufacturer. If you have any questions or need samples to test, please call us toll free at 1-800-HOT-HOGS.

PIG HAZMAT KIT IN BULK CONTAINER

Absorb up to 108 gallons with our largest chemical spill kit.

Seamless, lockable polyethylene container keeps absorbents clean, dry and secure while the opaque walls block UV rays from degrading contents for up to 8,000 hours. Four-way forklift entry makes the kit easy to move, and you have a choice of wheels — select 10" wheels for uneven surfaces or 5" for smooth indoor rolling.

KIT304

NOTE: A PIG Bulk Container Protection Cover (available separately) is suggested for outdoor storage to protect container from moisture, dirt and the elements. See PAK800 on page 50.

DID YOU KNOW?

38% OF FACILITIES DO NOT HAVE A BATTERY ACID COMPATIBLE SPILL KIT.

Whether your forklifts charge in-vehicle or on a battery rack, leaks and spills of battery acid are a nasty hazard that require special attention. If and when the acid hits the floor, responding with proper absorbents that are close at hand is key.

Data provided by our patented Spill Risk Algorithm.

PIG PROTECTION COVERS

Add visibility and guard spill kits from UV rays and weather.

Keep water, snow, dirt and debris off lids and resist weathering and UV rays. The high-visibility color is easy to locate and has an attached see-through pocket for an identification label. Made of durable, PVC-laminated polyester and elasticized bottom, these covers are available in multiple sizes to fit various types of kits. For overpacks with handles, elastic cutout lets handle stick out but won't let water in.

Unbeatable value!

Some brands give you half-filled boxes to look good on a shelf, but our ShopReady Wipers are stuffed to the max — you get 50 per box!

PIG SHOPREADY DISPOSABLE MICROFIBER WIPER

We've never met a tougher microfiber wiper!

NEW!

When you hear microfiber, you probably think of cleaning, polishing and other light-duty tasks. That's about to change! Our ShopReady wipers are ideal for wiping unfinished cast iron, gears, burred edges, and other rough surfaces.

ShopReady wipers won't bleed out or contaminate clean surfaces, whether you're using them wet or dry. Our wipers feature exact cut edges to eliminate fraying, shedding and unraveling, plus they're more durable, lower linting and have better retention compared to red shop towels. Available in four colors for color-coding the different processes at your facility.

Visit newpig.com to see new sizes and rolls.

SPILL CONTROL

PIG-TESTED FOR THE TOUGHEST CONDITIONS.

Jacob R.
— Product
Manager

Serious solutions for sudden spills.

Containing liquids at the source is proactive, smart drain defense. If you have an emergency spill or machines that leak, the last thing you want is for unwanted liquids to get into your drains because that can be a violation of EPA Stormwater and SPCC regs. These PIG-approved spill containment berms, barriers, blockers and booms keep liquid releases out of your drains to keep contaminants out of the water supply.

"If you have drains, and you have chemicals, you should have these."

— Shawn, DrainBlocker Customer

HELPS YOU COMPLY

SPCC 40 CFR 112.7

Facilities must have written plans and documentation of the products that are in place to prevent discharge of oil into waters.

STORMWATER 40 CFR 122.26

Facilities with an SWPPP must describe the plan and equipment available to prevent illegal discharge of pollutants into waterways.

GET A **FREE** SPILL RISK ASSESSMENT FROM PIG!

Understand your facility's spill risks so you can comply with regs and avoid fines.

Learn more on page 57.

PLR267
Built-in connectors let you
create barriers of any length.

SPILLBLOCKER DIKES

Get fast protection from spreading spills and leaking machines; great for capturing liquids during maintenance.

Super-flexible, reusable SpillBlocker Dikes guarantee fast protection when a spill is heading right for your drain. They seal tight to contain, confine or channel spreading spills, washdown fluids during maintenance applications, or oil from machine or tank leaks. Flexible and formable dike shapes to the spill, confining and diverting fluids without absorbing to make cleanup simpler. Select from five different heights to best suit how you need to handle different depths of liquid.

HELPS YOU COMPLY with 40 CFR 112.7 SPCC Regulations

HELPS YOU COMPLY with 40 CFR 122.26 Stormwater Regulations

**FOR MACHINES WITH CONSTANT LEAKS, SEE
SEMI-PERMANENT BARRIERS ON PAGES 58–60.**

"We are very pleased at how well the Spill Blocker has worked for us. I was surprised at how well they adhered to the floor. Very easy to maneuver into place."

— Adrian, PLR212 Customer

If you're not happy with your New Pig purchase, we'll refund every penny, including taxes and shipping. Even the return freight is on us!

Have a leak that's starting to spread? Just surround your machine with a dike to contain the liquid until you can make repairs.

Polyurethane dikes are easy to clean. Just use soap and water.

PLR254

PIG SPILLBLOCKER DIKE

Exclusive New Pig formulation resists tearing, and tacky bottom layer seals tight to smooth surfaces. Polyurethane dike resists water, oils and other chemicals. Material cleans easily with soap and water and built-in connectors let you join multiple sections (PLR204 requires connectors and corners).

PIG SPILLBLOCKER ROUGH SURFACE DIKE

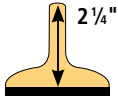

Stop spills on asphalt in their tracks with a liquid-tight tacky bottom layer.

Tear-resistant top layer and super-tacky bottom layer create a tight, liquid-proof seal on asphalt, rough concrete and more. Barrier provides fast protection when a spill is heading for your drain on a rough surface; it confines and diverts fluids without absorbing them. Intended for one-time, limited term use.

HELPS YOU COMPLY with SPCC and Stormwater Regulations

Bottom layer "seeps" into surface cracks to form a liquid-resistant seal.

PIG DRIVE-OVER SPILLBLOCKER

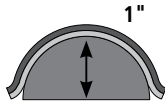

The ONLY flexible barrier for traffic and long-term outdoor use.

Divert stormwater or create a liquid-proof perimeter with the ONLY reusable, flexible barrier designed for extended use outdoors. HogHyde skin stands up to heavy traffic driveovers and resists UV rays.

HELPS YOU COMPLY with SPCC and Stormwater Regulations

Corner pieces make 90° turns possible.

Interlocking end joints connect dike sections to create longer lengths.

PLR222

pig BUILD-A-BERM BARRIER

Configure a barrier of any size or shape to fit your leak-prone areas.

Contain leaks and spills around your machinery without building expensive concrete curbs or installing angle iron. You can create a custom semi-permanent barrier that's exactly the size and shape you need, indoors or out. Pliable open-cell foam barrier springs back into shape after you walk or roll over it with light, wheeled equipment. Durable, 18-oz. all-vinyl covering resists oils, coolants and most chemicals. High-visibility barrier draws attention for increased safety.

HELPS YOU COMPLY with SPCC and Stormwater Regulations

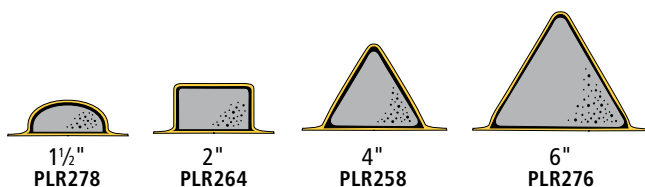

"We have installed this Build-A-Berm kit in order to contain paint. The ease of being able to drive over it, and put pallets of paint in the locations makes it a great product. I would highly recommend this to any company trying to fulfill regulations and even just for the ease of use."

— Andrew, Build-A-Berm Customer

If you're not happy with your New Pig purchase, we'll refund every penny, including taxes and shipping. Even the return freight is on us!

PIG DRIVE-OVER BUILD-A-BERM BARRIER

Build a custom spill berm that can handle heavy vehicle driveovers.

Custom containment berm helps you control liquids in high-traffic areas. 40-ounce, vinyl-coated fabric with an open-cell foam core compresses when driven over and springs back to shape. Predrilled aluminum mounting strips with anchors secure berm to most surfaces.

Both the 1½" and 2" berms are durable enough to withstand indoor or outdoor traffic from trucks, loaded tow motors and other heavy vehicles with sufficient ground clearance. Additionally, the 1½" berm also accommodates low-clearance traffic like pallet jacks, heavy carts and dollies.

HELPS YOU COMPLY with SPCC and Stormwater Regulations

Secure to your floor with fast-curing Sili-Thane 803 Sealant (PTY340, sold on page 59).

Connect barrier sections and corners with vinyl cement (PTY105, sold on page 59).

BOM107

NONABSORBENT CONTAINMENT BOOM

Contain oil and debris on water to protect the environment.

Closed-cell polyethylene foam corrals pollutants while the skirting barrier hangs below the waterline to stop them from creeping under. Galvanized steel chain along the length adds weight and rigidity, the vinyl-coated polyester material is UV-resistant, and built-in connectors let you link multiple booms.

HELPS YOU COMPLY with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges

HELPS YOU COMPLY with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

Marine-grade aluminum slide connectors and toggle pins let you link multiple booms.

CHOOSE YOUR BOOMS BASED ON TYPE OF CURRENT AND BODY OF WATER:

EconoMax for calm, low currents

Rectangular foam inserts and 16"–18" height provide enough buoyancy for calm water. Effective in bays, harbors and breakwaters.

BOM104

Super Swamp for swamps or calm, shallow waters

10"-high boom with round foam inserts is designed for shallow waters. Use in streams, canals, drainage ditches and swamps.

BOM101

Simplex and Optimax for moderately fast to strong currents

Round foam inserts and 18"–20" height makes these best for rough waters. Ideal for rivers, shorelines, ports and harbors.

BOM107

Patent 8,117,686

Urethane Notice: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Please inspect the stored product regularly to ensure it is in a usable state. For more details and for chemical compatibility, please call Technical Services. For optimum performance, ensure that the area surrounding your drain is free of debris, cracks and holes.

DID YOU KNOW?

81% OF AT-RISK DRAINS DON'T HAVE A DRAIN COVER AVAILABLE.

For drains in close proximity to spill risk, it is important to keep protection nearby. Yet, 4 out of 5 at-risk drains have zero means at hand to stop liquids during an emergency.

Data provided by our patented Spill Risk Algorithm.

LEARN MORE AT NEWPIG.COM/ALGORITHM

A CLOSER LOOK

Problem: Our original drain-sealing product worked great for spill response: seal the drain, pick it up, use it again. The problem was that people would leave it outside for weeks and it would become goopy, or it would tear when they picked it back up.

Finding the solution: We wanted to come up with a top cover that could withstand long-term outdoor use and keep the urethane layer from tearing when customers pulled it off the drain. We created 15 different versions before we had the best combination. We ultimately patented a way to bond a layer of Elvaloy vinyl with our super-sealing urethane to create the most weather- and UV-resistant drain cover on the market.

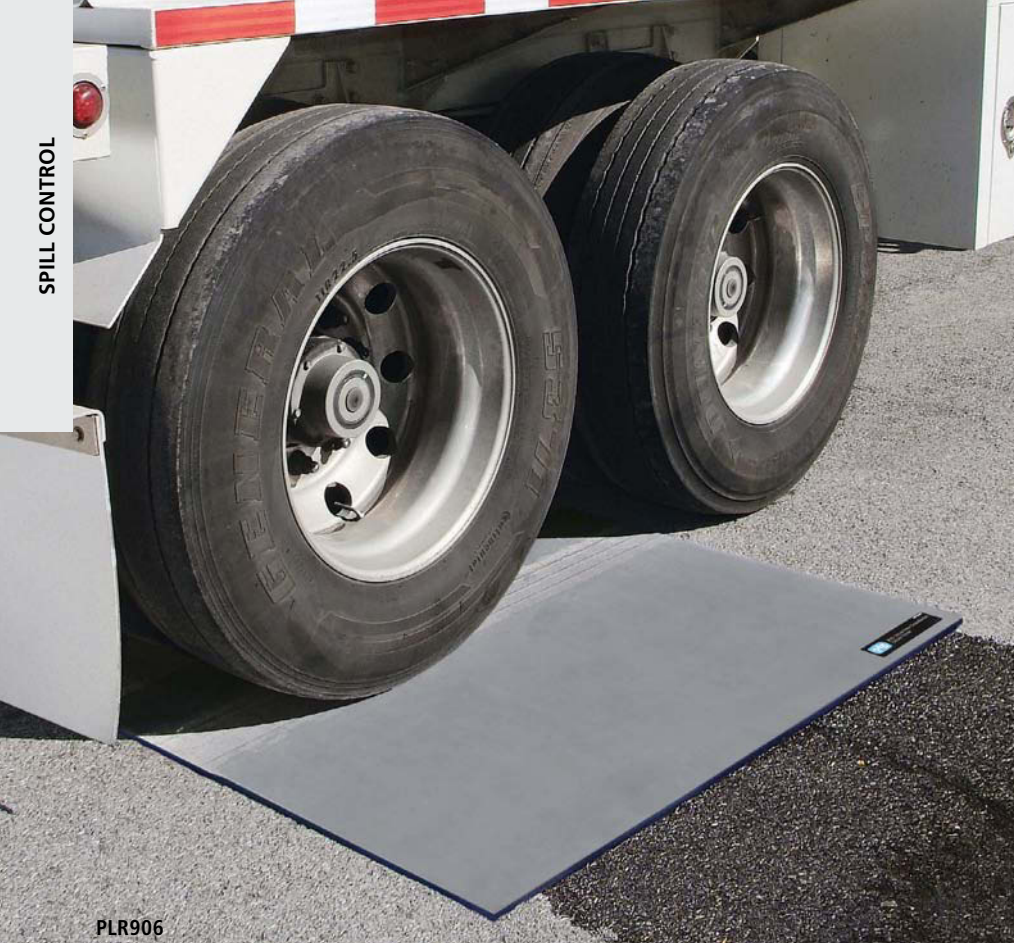

Problem Solved:
PIG DrainBlocker Drain Cover

Vinyl top with Elvaloy technology

Super-sealing urethane bottom

Built-in connectors join multiple covers to protect longer trench drains.

PIG DRIVE-OVER DRAINBLOCKER DRAIN COVER

Go ahead and drive over it!

The toughest storm drain cover you can buy is the only one that can handle driveovers — even from heavy tankers. The durable, long-lasting design withstands long-term outdoor use no matter what the weather brings. HogHyde rubber top layer resists stretching, ripping and tearing plus it withstands prolonged exposure to diesel and gasoline.

PLR930

NO RIPS, NO TEARS, NO WORRIES

Our toughest DrainBlocker can take whatever your parking lot dishes out.

PUNCTURE RESISTANT

Stands up to debris and sharp objects.

ABRASION RESISTANT

Won't wear down even when tires track on gravel.

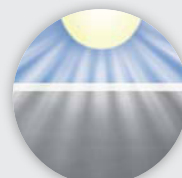

TEAR RESISTANT

Won't rip when you pick it up after deployment.

UV & IR LIGHT RESISTANT

Made to take the baking sun in your parking lot.

PIG CONICAL DRAIN PLUG

Seal drains without using cement.

Durable polyurethane plug forms a liquid-tight, chemical-resistant seal in seconds — just wedge the plug in your drain for an easy alternative to permanently sealing it with cement. Simply remove the plug to allow your drain to function normally.

| PIG® Conical Drain Plug | | | |

See note on page 63 for more details on compatibility and life expectancy.

PIG DRAIN COVER STORAGE CASE

Keep your DrainBlocker protected and ready to go.

Threaded, screw-in brackets mount on any vertical surface so you can store your drain cover at point of use to seal drains faster. Hardshell case made of rigid polyethylene is corrosion and UV resistant to protect your drain cover (not included) indoors or out, and high-visibility yellow color is easy to spot during an emergency. Textured rubber handle makes the case easy to carry.

Store your PIG Drain Cover where you need it!

When deflated, Plugs slide into just about any pipe. Three models cover a range of pipes from 3.5" to 24".

MULTI-FLEX INFLATABLE PIPE PLUG

Temporarily block pipes during repairs or if a spill happens.

Small, flexible design can be snaked through hot tap or branch pipes into larger pipelines that are otherwise inaccessible. Pipe plug inflates up to eight times its size to prevent the flow of liquids, and it conforms to a wide range of pipe dimensions. It can be fully or partially inflated to suit your application. UV-resistant, nylon-reinforced nitrile resists oils and has a shelf life of more than ten years.

HELPS YOU COMPLY with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

STORMWATER

WHO YOU GONNA CALL? STAIN BUSTERS!

Chris F.
— Product
Manager

Why comply with Stormwater Regs?

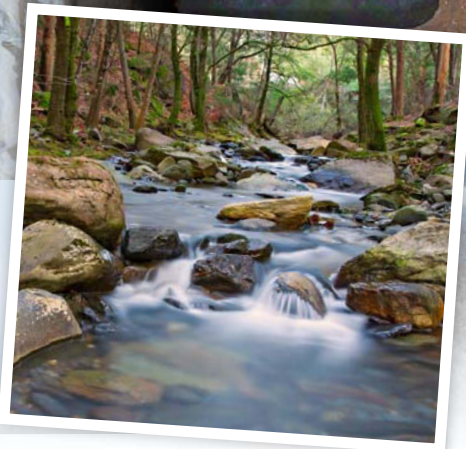

Noncompliance with the EPA's Stormwater Regulations can result in hassles, headaches and even fines. If that's not enough reason to comply, protecting the environment also makes a positive statement toward being a good corporate citizen.

Does your facility need a Stormwater Plan? New Pig can help you choose the best products to get into compliance. Call our Technical Specialists at 1-800-HOT-HOGS for expert advice!

*"If you have drains, and you have chemicals,
you should have these."*

— Shawn,
PIG Drain Filter Customer

HELPS YOU COMPLY

SPCC 40 CFR 112.7

Facilities must have written plans and documentation of the products that are in place to prevent discharge of oil into waters.

STORMWATER 40 CFR 122.26

Facilities with an SWPPP must describe the plan and equipment available to prevent illegal discharge of pollutants into waterways.

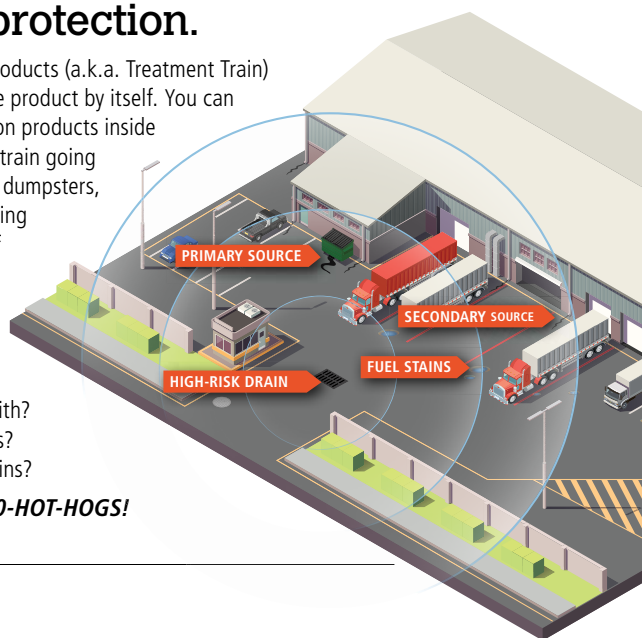

New Pig has every solution for source-to-drain protection.

Using a combination of stormwater products (a.k.a. Treatment Train) removes more pollutants than any one product by itself. You can maximize clean discharge with filtration products inside and above your drains, then keep the train going with more products at the source (i.e. dumpsters, downspouts and parking lots). Capturing contaminants before they enter runoff confines the problem and extends the life of your products.

As you're choosing, ask yourself these questions:

- What contaminants am I dealing with?
- What are my drain sizes and shapes?
- What's traffic flow like near my drains?

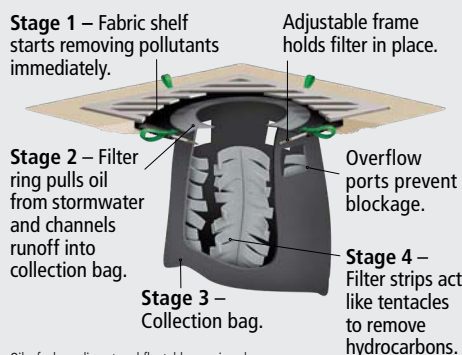

Need help? Call the experts at 1-800-HOT-HOGS!

Sediment and floatables versions don't have filter strips.

INT303

PIG® ADJUSTABLE FRAME STORM DRAIN FILTER

No matter what shape or size your storm drain is, we have a filter for it!

Steel frame can be expanded or contracted to perfectly fit your drain, and it stays put even when the grate isn't installed. The frame adds strength and secures the filter in place, so you'll never have to fish out a failed insert again!

Heavy-duty lifting straps allow easy handling, they serve as a visual reminder for on-site maintenance and the high-visibility green color helps inspectors see from a distance, even with the grate in place, that you're proactively managing your stormwater.

pi ADJUSTABLE STORM DRAIN FRAME WITH REPLACEABLE FILTERS

Filter changeouts are easier and more affordable than ever before!

NEW!

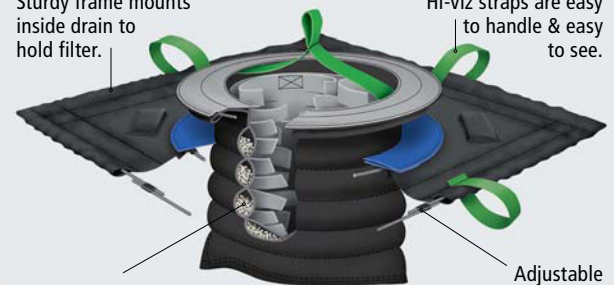

You can finally stop fishing out those heavy, overloaded frameless drain filters (a.k.a. "witch hats") that collapse into your basin. Our coated-steel adjustable frame secures the system in place, and you only replace the center filter bag — it's an easy, one-person job that saves money because you're not disposing of the entire drain insert. Replaceable Filters feature a heavy-duty lifting strap, and hi-viz straps around the frame help inspectors see that you're proactively managing your stormwater. Overflow ports minimize water backup, and patented filter ring channels water to center of filter.

HELPS YOU COMPLY with 40 CFR 122.26 Stormwater Regulations

A LOOK INSIDE OUR STORM DRAIN FILTER

Sturdy frame mounts inside drain to hold filter.

Hi-viz straps are easy to handle & easy to see.

Replaceable filter removes contaminants from runoff. (Heavy Metals version shown)

Adjustable frame expands & contracts to fit your drain.

PIG SEDIMENT DRAIN FILTER

Collect debris and dirt to comply with regs and protect drains.

Drain Filter is ideal for use in the construction industry and anywhere sediment collection is a concern. Geotextile constructed of a monofilament polypropylene captures sand, dirt, sediment, trash, leaves, sticks and cigarette butts. Filters with overflow ports allow excess water to release into drain during heavy flow or if filter is blocked. It also provides an opening to collect samples of filtered stormwater.

HELPS YOU COMPLY with 40 CFR 122.26 Stormwater Regulations

FLT748

FLT787

Overlap socks to cover longer distances — no staking or trenching required.

FLT711

FLT786

PIG STORMWATER FILTER SOCK

Easy and affordable ways to filter contaminants from runoff.

These socks won't grow mold like compost, nor will they release harmful compounds into the water supply like rubber media. The strong but flexible outer skin allows water to flow through while the filter media removes pollutants. They're perfect for use on uneven surfaces like rough terrain or broken asphalt.

- FLT786—FLT787 feature a natural, recycled, shelf-stable media that filters sediment and floatables
- FLT710—FLT711 remove sediment, oil and floatables using parboiled, oven-dried rice hulls as the inner material
- FLT717—FLT718 have the rice hull filler plus activated carbon and zeolite; they remove heavy metals like copper, lead and zinc in addition to sediment, oil and floatables

HELPS YOU COMPLY with 40 CFR 122.26 Stormwater Regs

DID YOU KNOW?

57% OF ALL AT-RISK AREAS DON'T HAVE A SPILL KIT WITHIN 300 FEET.

It's neither practical nor necessary to keep a spill kit at every storm drain, but you can get ready for fast spill response by playing some zone defense. Pro Tip: Get a satellite view of your facility and then position spill kits where they can serve multiple drains.

PIG STORMWATER DUAL-CHAMBER FILTER SOCK

Remove pollutants from stormwater runoff with our dual-chamber sock.

Sock allows water to pass through as it removes fuels, oil, sediment, floatables and other pollutants from stormwater runoff. Patented dual-chamber design: the first chamber's filler pulls in hydrocarbons, and the second chamber is filled with stone ballast (FLT820, FLT821) or our special media blend (FLT822, FLT823) for two-stage filtration of heavy metals such as zinc, cadmium, chromium, lead, copper and other dissolved metals.

HELPS YOU COMPLY with 40 CFR 122.26 Stormwater Regs

PIG STORM DRAIN SKIMMER SQUID

Install inside your storm drain as a passive last line of defense.

Absorbent spaghetti strip pillow (the "head") floats to remove surface-level contaminants while the absorbent pompom (the "tentacles") sweeps through moving water to capture oil below the surface. 3-foot diameter reach covers the largest area of any in-the-drain skimmer on the market, and it works effectively in standing water or turbid conditions. It's designed to work in tandem with a PIG Storm Drain Filter for best performance, but it can also be used as a standalone treatment.

HELPS YOU COMPLY with 40 CFR 122.26 Stormwater Regulations

| FLT940 | | 2" - 4" Dia. Pipes | | 0.8 cu. ft. | 252 | \$38 | \$36.45 |

Absorbent "tentacles" sweep through moving water to cover more area and capture more oil.

OILY MESS? OUR MICROBES SEE A MEAL.

PIG BIOREMEDIATION

Eliminate oils and fuels in a variety of places without harming the environment!

Sometimes oils and fuels can show up in places where they shouldn't. Now you can remove them using natural solutions instead of cleaners and degreasers that contain harsh chemicals. Those cleaners and degreasers can't be allowed to enter waterways or groundwater systems — check Section 6 of their SDS to see the warning!

PIG Bioremediation Products are specifically designed to clean up oils, fuels, and grease without leaving harmful byproducts in the environment. BioBreaker™ microbes digest the hydrocarbons and convert them into water and harmless gases, so no containment or cleanup is required.

DID YOU KNOW?

95% OF STORM DRAINS ARE AT RISK FOR OIL SHEEN RELEASE.

Your parking lots are a catch-all for oil and other vehicle fluids. Stains throw off oily sheens every time it rains, sending polluted runoff into your storm drains.

Data provided by our patented Spill Risk Algorithm.

VISIT NEWPIG.COM FOR ADDITIONAL SIZES OF BIOREMEDIATION ITEMS

PIG MICROBIAL OIL STAIN REMOVER

Gradually remove oil and fuel stains from pavement and concrete to eliminate rain runoff and sheen emissions. Apply with a manual sprayer and light agitation or a pressure washer. Dilute 1:15. Great for use in parking lots and around docks, dumpsters, compactors, stockpiles and more.

TRIPLE AWARD WINNER!**CLN888****PIG MICROBIAL OIL REMEDIATOR FOR SOIL, GRASS AND WATER**

Remove oil and fuel from soil, grass and water to eliminate rain runoff. Must be diluted 1:10; each diluted gallon remediates approximately one cubic yard of soil or 200 gallons of water.

CLN935**PIG OIL REMEDIATOR FOR SOIL, GRASS AND WATER**

Enzymes in the liquid act as "food" for microbes that occur naturally in the environment. Simply spray onto oil spills — no dilution necessary.

NOTE: Does not contain microbes.

CLN951**PIG MICROBIAL OIL STAIN REMOVER AND ABSORBENT**

Comes in powder form; spread on oil and fuel spills to absorb them. After absorption, add water to activate microbes that will "eat" the hydrocarbons. Ideal for manufacturing floors, loading docks, machine shops and more.

CLN937**PIG MICROBIAL CRUDE OIL REMEDIATOR**

Break down and eliminate all known components of crude oil in all phases of oil field operations. Applies easily using a manual sprayer and light agitation or pressure washer. Dilute 1:15.

CLN945**PIG MICROBIAL FOOD PROCESSING OIL REMEDIATOR**

Gradually remove hydrocarbons as well as animal and vegetable grease, oils, fats, lipids and starches from food processing environments. Dilute 1:15.

CLN939**PIG MICROBIAL OIL REMEDIATOR FOR GREASE TRAPS**

Digests grease, fats and organic wastes that accumulate in grease traps and drain lines to prevent backups and overflows. Also helps to reduce the need to pump grease traps and reduces odors associated with maintenance of traps.

CLN962**PIG MICROBIAL OIL-WATER SEPARATOR REMEDIATOR**

Significantly reduce hydrocarbon contamination in oil-water separators and interceptors. Eliminates hydrocarbon accumulation that causes backups which can interrupt production at your facility.

CLN941**PIG MICROBIAL OIL REMEDIATOR FOR SEPTIC SYSTEMS**

Break down and eliminate hydrocarbons plus food and vegetable grease, oil, starches and lipids to keep your septic system working optimally. Use monthly as a preventative maintenance procedure. Dilute 1:10.

GRIPPY MATS

WHERE WILL YOU STICK IT?

John B.
— Product
Developer

Get a grip with our adhesive-backed mats and runners!

Grippy Mat — the world's first

Our exclusive adhesive is formulated to perform in the wettest conditions and will never disintegrate, delaminate or leave a gooey mess to clean up.

The right amount of stick

Proven stick-and-release technology keeps mats in place without shifting but pulls up easily without leaving residue.

Easy cleaning

It's the only adhesive that stands up to heavy traffic and deep cleaning with a mop, floor scrubber or carpet extractor.

"I can't express how amazing this product is. It goes down easily and stays down perfectly, creating a safe environment."

— Candy, Happy Customer

PIG GRIPPY MATS

New Pig Adhesive-Backed Mat Notice: New Pig Adhesive-Backed Mats are formulated to work with most common hard-floor surfaces. New Pig Adhesive-Backed Mats are not intended for use on wood flooring with stains, finishes, or coatings. New Pig Adhesive-Backed Mats have non-permeable barrier layers to prevent liquid pass-through & as such, are considered to be non-breathable & may not be suitable for use on surfaces that require air curing, including, but not limited to, newly poured concrete or recently applied coatings, sealants & finishes. All adhesive mats have some potential to leave residue, lift and/or discolor 1) surface finish, 2) surface coating, 3) paint, 4) loose or pre-damaged tiles. For these reasons & others, if you have questions about the suitability of New Pig Adhesive-Backed Mats for your application, test a small section of mat in a discreet or non-critical area before using on larger areas. New Pig Adhesive-Backed Mats are designed for use for up to 3-6 months in commercial and general public environments, depending on conditions & traffic patterns. Regardless, New Pig Adhesive-Backed Mats should be replaced immediately if they show signs of wear or damage & should always be replaced in commercial and general public environments no later than 6 months after installation.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE & NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT WILL BE ACCEPTABLE FOR USE ON CUSTOMER'S FLOORING OR ANY OTHER SURFACE. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR & CUSTOMER HEREBY RELEASES & DISCHARGES NEW PIG FROM ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO OR RELATED TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S DWELLING OR FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS & APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAT IN CUSTOMER'S DWELLING OR FACILITY.

EXCLUSIVE BENEFITS OF GRIPPY MAT

CREATES SAFE FLOORS

Stays put without shifting to add traction in entrances, walkways and other wet areas.

ENHANCES APPEARANCE

Create continuous runs without coverage gaps, overlaps or out-of-place mats for safe floors that look good.

OUTLASTS TRAFFIC

Durable mat construction withstands cart wheels and repeated foot traffic for up to 12–16 months.

FITS ANY FLOORPLAN

Customize your layout for a seamless look; Grippy Mat cuts to any size or shape for a perfect fit.

REDUCES COSTS & CLAIMS

Eliminates wasted labor while minimizing workers' comp and liability incidents from slips, trips and falls.

PIG SAFETY BORDER GRIPPY MAT

Designate pathways and provide traction to double-down on safety.

Safety Border Grippy Mat is the **ONLY** floor safety solution that combines a high-traction walking surface with a hi-viz safety edge pattern. Contrasting yellow and black markings are designed to meet ANSI standards and help you comply with OSHA 1910.22 (walking surfaces standard). Durable printed surface withstands industrial wear and tear, and you can run your vacuum, mop, broom or floor scrubber right over it.

PIG® Safety Border Grippy® Mat

| Item # | Size (W x L) | Pallet Qty. | 1-2 | 3-6 | 7+ |
|-------------------|--------------|-------------|--------------|--------------|--------------|
| GRPSB36200 | 3' x 100' | 18 | \$379 | \$343 | \$319 |

NOTE: New Pig's Adhesive-Backed Mats work with most common industrial and commercial floor surfaces. To determine the suitability for your application, test a 6" x 6" piece in a non-critical area before use. See the PIG Adhesive-Backed Mat Notice on page 78 for more information.

= Best-Seller

PIG PAINT BOOTH MAT WITH ADHESIVE BACKING

Protect spray booth floors & mixing rooms from dust & overspray.

The top surface helps attract and trap dust, dirt, paint and primer overspray before it causes paint defects during a spray job, and the self-sticking back keeps mat securely in place. Mat peels up for fast, easy changeouts and lasts up to three months depending on amount of overspray and cleaning. It's durable enough for vehicles and heavy foot traffic, plus the padding reduces noise and makes standing more comfortable. Meets NFPA33 – Static Dissipative & OSHA Standards at conditions of 50% RH or higher.

PIG STICKY STEPS MAT

Grab grime from shoes and wheels.

Prevent tracking dirt and debris with high-tack disposable mats. Used sheets tear off easily, and the numbered pull-tab system shows when you're running low. Each 4 mil polyethylene sheet is nonallergenic, nonodorous and nondrying. Low-profile pack adheres with easy-to-use backing.

Introducing PIG TuffGrit Mats

Nothing comes close to the long-lasting traction of PIG TuffGrit Mats.

Tired of grit coatings that wear thin, go bald and lose their grip? Our new line of high-traction TuffGrit Anti-Fatigue Mats and Anti-Slip Runners are built to outlast the competition, and we've got the testing to prove it.

We ran head-to-head tests against the leading competitors' mats, and the results are *tuff* to argue with. Look below to get the nitty gritty on how they performed.

GRIT SO TOUGH, IT OUTLASTED OUR TESTING!

UP TO
11x
MORE DURABLE
THAN THE LEADING
COMPETITOR

GRIT-IN-THE-BOX TEST

We dumped the shipping containers for TuffGrit Drainage Mat and the leading competitor to see what fell out...

Brand X: FAILED

The grit that's supposed to be keeping you safe doesn't stay on the mat.

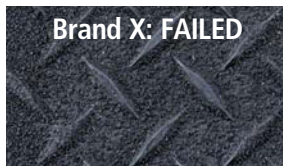

TuffGrit: 99.9% INTACT

Almost all our grit stays on the mat, which helps you stay on your feet.

RECIPROCAL ABRASION TEST

We tested TuffGrit Diamond Plate Mat and the leading competitor on our Abrasion Testing Machine...

Brand X: FAILED

Their grit was gone and raw rubber was exposed after just 7,400 passes.

TuffGrit: 11X LONGER

We stopped the test after 82,000 passes and still no signs of wear!

PIG TUFFGRIT DIAMOND PLATE ANTI-FATIGUE MAT

We just raised the bar for non-slip anti-fatigue mats.

Some mats give you grit, some give you a diamond plate texture — this mat doubles down on safety with both! Our TuffGrit™ coating lasts *eleven times longer* than the leading competitor's grit coating in dry environments, and *seven times longer* under oily conditions. Plus, it's engineered to leave no grit behind, making it safer than other mats that lose their grit.

Exceeds ANSI standards for high slip resistance, even in wet areas and applications with light overspray or oily drips (not for use in standing water/oil). More than a half inch of PVC foam relieves stress on knees, feet, ankles and back from extended standing.

For use in areas with light splashes of water, oil, grease and chemicals.

PIG® TuffGrit Diamond Plate Anti-Fatigue Mat

PIG TUFFGRIT COMFORT ANTI-FATIGUE MAT

Long-lasting TuffGrit™ surface provides long-term safety.

TuffGrit™ coating is incredibly durable and abrasion resistant; no other grit coating on the market lasts longer. Exceeds ANSI standards for high slip resistance, far better than tapes or paints. Provides extreme traction even in areas with light overspray and oily drips (not for use in standing water/oil). Engineered to leave no grit behind which is safer than other mats that gradually lose their grit.

Blend of comfort and traction is ideal for finishing stations, assembly lines and other work areas. 3/8"-thick PVC foam relieves stress on knees, feet, ankles and back from extended standing.

For use in areas with light splashes of water, oil, grease and chemicals.

* ⚠️ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

TUFFGRIT MODULAR ANTI-FATIGUE DRAINAGE MAT

Build custom layouts in work areas with high volumes of water or oil.

Proprietary TuffGrit™ coating easily outlasts the competition and exceeds ANSI standards for high slip resistance, providing extreme traction even in wet or oily environments. Plus, it's engineered to leave no grit behind, making it safer than other mats that lose their grit.

Modular design lets you attach multiple 3' x 3' mats and Beveled Edges (all sold individually) to create custom layouts. Large drainage holes channel liquids to prevent pooling and minimize slip hazards. Heavy-duty nitrile rubber resists a wide range of oils and industrial fluids. Relieves stress on knees, feet, ankles and back from extended standing.

Ideal for continuous water, oil and grease contact, as well as light chemical splashes.

PIG® SILICONE WATER VACUUM BARRIER

Attach to your wet/dry vac to contain and capture water at the same time.

Cleaning up large volumes of water from routine washdowns and minor flooding just got easier! Place this barrier on the floor, attach to your wet/dry vac, then squeegee water toward it. Works with most standard wet/dry vacs — no special equipment needed. Directing water toward this 6' long barrier is easier than trying to guide it to a floor drain or pump, and it provides a backstop to prevent water from going where you don't want it to.

This barrier eliminates the hassle of priming a pump or having a pump motor fail from dry running. It's reusable and cleans easily with soap and water, so it's perfect for hospitals, schools, property management and much more.

Barrier stays in place while you push water toward it.

PIG® Silicone Water Vacuum Barrier

Item #
WTR052 • 4"W x 6'L x 2.25"H • 1/box

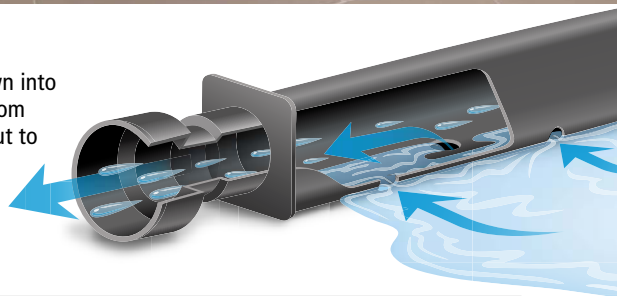

1+
\$199

Comes with a 2.5" hose adaptor to fit onto your wet/dry vac.

Water is drawn into side and bottom ports, then out to your vacuum.

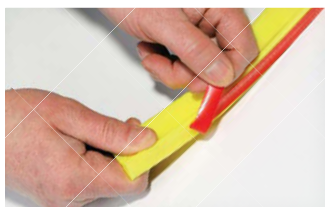

PIG SILICONE WATER BARRIER

Affordably block and divert small volumes of water with this lightweight barrier.

Low-profile water barrier has an adhesive bottom that adheres to smooth surfaces. Install it once, away from traffic zones, and leave it down for long-term protection against nuisance leaks of clean water. Flexible silicone can form tight curves and small diameter circles to surround almost anything — water heaters, air compressors, HVAC, boilers and more. Priced affordably so it can be discarded once it reaches end of useful life; not intended for multiple deployments.

**IF YOU NEED THIS BARRIER, YOU PROBABLY
NEED TO SOAK UP SOME WATER.
FIND WATER ABSORBENTS ON PAGES 14–15.**

Simply peel and stick for instant protection.

10-foot length can be cut to fit smaller applications.

PTY502

Limit water damage and disruption by encasing broken pipes in a reusable clamp.

PIG PIPERESCUE INSTANT REPAIR CLAMP

Repair water pipes and leaky fittings with this clamp.

NEW! Creates a watertight seal on metal, plastic or multilayer pipes. Can be fitted when the leak is still in full flow, in tight spaces to clipped pipes and in the notch of a joist. Once clamp is applied, pipe can function normally, hot or cold, until a permanent repair can be made! For temporary use only; can be reused. Kit includes two clamps and two rolls of PTFE tape.

PIG AEROSOL SINGLE-CAN RECYCLER

Puncture aerosol cans to avoid the hassle of haz waste handling.

Why pay for haz waste disposal, when you can cash in by selling properly emptied cans as scrap steel? Our recycling system easily punctures aerosol cans, rendering them exempt from haz waste regs when properly emptied.

Recycler works with domed mini, standard and jumbo aerosol cans. Mounts directly into 2" bung on a 30- or 55-gallon closed-head steel drum to collect residual liquids (drum should not be filled more than 70% full to provide proper displacement for released contents).

One-piece filter system removes harmful VOC's while timestrip indicator eliminates the guesswork of carbon cartridge changeouts. Carbon filter life is approximately three months.

HELPS YOU COMPLY with 40 CFR 261.1(c)(6) defining scrap metal

| PIG® Aerosol Single-Can Recycler | | | pig | |
|---|--------------|--------------|-----|--|
| Item # | 1-2 | 3+ | | |

| DRM1266 Contents • 1 Puncture Unit • 1 Goggles • 1 Instruction Sign • 1 Plastic Sleeve • 1 Combination Filter 1 Grounding Wire • 8 various-sized gaskets | | | | |
| Item # | 1-3 | 4+ | | |
| DRM1265 • Combination Coalescing/Carbon Filter • 1 each | \$342 | \$268 | | |
| DRM1238 • Repair Kit with Viton Replacement Gasket | \$94 | | | |
| DRM1238 Contents • 1 Grease • 1 Puncture Pin • 1 Spring • 2 Viton Gaskets | | | | |

PIG AEROSOL FOUR-CAN RECYCLER

Save time with the only four-can recycler on the market.

Many of our customers go through thousands of aerosol cans every month. Puncturing that many one by one isn't efficient, so we came up with a time-saving solution! Our Four-Can Recycler mounts directly into 2" bung on a 55-gallon closed-head steel drum, and it has all of the same features and benefits listed above.

| PIG® Aerosol Four-Can Recycler | | | pig | |
|--|---------------|---------------|-----|--|
| Item # | 1-2 | 3+ | | |
| DRM4000 | \$1975 | \$1871 | | |
| DRM4000 Contents • 1 Puncture Unit • 1 Goggles • 1 Instruction Sign • 2 Combination Filters • 1 Grounding Wire | | | | |
| Item # | 1-3 | 4+ | | |
| DRM1265 • PIG® Combination Coalescing/Carbon Filter • 1 each | \$342 | \$268 | | |
| DRM4003 • PIG® Aerosol Four-Can Recycler Repair Kit • 1 each | \$72 | | | |
| DRM4003 Contents • 5 Neoprene Gaskets • 4 Puncture Pins | | | | |

NOTE: Always operate system outdoors or in a well-ventilated area.

Punctured cans have no sharp, jagged edges.

One-piece filter captures odors and VOCs released by punctured aerosol cans.

Instructions poster included

Durable aluminum construction resists rust and corrosion.

Hardened steel pin cleanly punctures cans.

Ground wire helps prevent static electricity buildup.

Instructions come attached to the unit.

REDUCE YOUR HAZ WASTE **18x**

1 DRUM

USING A PIG AEROSOL CAN RECYCLER

One 55-gallon drum can hold the residual liquid from 4,200 emptied cans. The cans can then be recycled or sold for scrap metal.

**DRUMS OF HAZ WASTE = 1
RECYCLABLE CANS = 4,200**

VS

18 DRUMS

Without puncturing cans, you'd fill eighteen 55-gallon drums with waste and they would all have to be disposed of as hazardous if not completely emptied.

**DRUMS OF HAZ WASTE = 18
RECYCLABLE CANS = 0**

NOTE: Be sure to check federal, state and local regulations.

When you consider drum prices, haz waste disposal costs, transportation costs, labor costs, storage space and environmental impact, can you really afford NOT to empty your aerosol cans?

IT'S A NO-BRAINER!
PIG AEROSOL CAN RECYCLER

LEAK DIVERTERS

TLS462
Translucent

PIG Leak Diverters are the solution to help you weather the storm.

No workplace is immune to the threat of overhead water hazards. Sometimes they're weather-related problems such as a leaky roof. Other times, they're an operational problem such as ruptured pipes or equipment condensation.

The benefits to having diverters on hand are endless! They'll help prevent facility water catastrophes before they happen, keep floors dry and safe, and prevent ruined equipment, inventory, lost production time and even possible injuries.

PIG Leak Diverters are engineered better than others, and include:

- ✓ Anti-clog drain filters
- ✓ RF welding technology for leakproof seams
- ✓ Heavy duty PVC that eliminates tears and punctures
- ✓ The perfect shape for superior water flow
- ✓ More stability thanks to more hanging points

THE PIG DIFFERENCE

PIG Leak Diverters are engineered to outperform cheap tarp-and-hose contraptions:

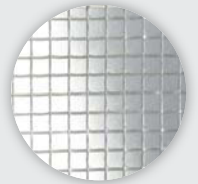

EASIER, SECURE HANGING

Multiple grommet points help maintain funnel shape.

STRONGER MATERIALS

No sagging or drooping so water won't spill over.

BETTER SHAPE FOR MAX FLOW

Pinched corners direct water flow to center of tarp.

FASTER DRAINING

Built-in debris cage stops clogs to keep big leaks flowing.

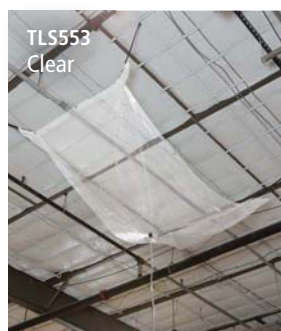

HOW IT WORKS

PIG ROOF LEAK DIVERTER

Help protect people, equipment and inventory from roof leaks.

PIG Leak Diversers hang easily in problem spots to catch roof leaks and channel them to a floor drain or container. They're great for quick response to avoid downtime and keep floors safe while you're waiting for repairs to be made. Nonpermeable tarp is strong and durable; resists punctures, UV rays and mildew. Accepts a standard 3/4" hose connection to channel liquid. Choose a size and color below — and don't forget to add your straps and hose!

PIG UMBRELLA-STYLE LEAK DIVERTER KIT

Pop open the fastest solution you can buy to catch a roof leak.

Hang the hook from a single point near the leak, pull off the cover and it opens like an umbrella. All-in-one kit is perfect for quick response to prevent damage to inventory or machinery and to avoid slip hazards.

Flexible 10'L PVC drain hose included with TLS461 or 25'L hose included with TLS903 channels leaks to a floor drain or collection container. 3/4" drain fitting accepts longer hoses. Nonpermeable tarp is vinyl coated for strength and durability; it resists punctures, UV and mildew to last multiple deployments. Tapered sides help funnel liquid toward center for better drainage. Three colors available: yellow draws attention; clear shows liquids and lets light pass through; translucent shows liquids and blends in with white ceilings.

Hang the diverter from a single point near the leak, remove cover, pop diverter open.

★★★★★

"Holy Pig! It works! We've needed something for those sudden leaks that appear out of nowhere. These work great. They're easy to store and put into use. If you buy one, you're gonna want more!"

—David, TLS461 Customer

★ = Best-Seller

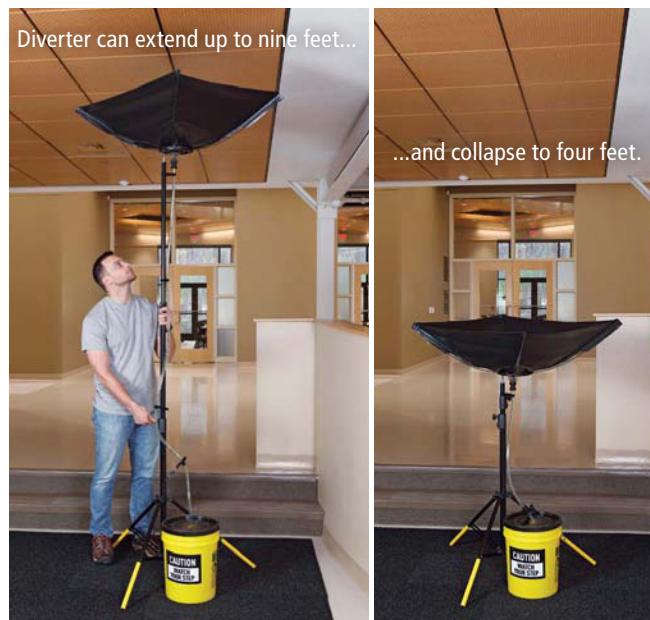

Bright colors and small footprint are perfect for high traffic areas.

PIG HIGH REACH LEAK DIVERTER KIT

Here's a solution when you can't hang a diverter from the ceiling.

Quickly route small leaks from high ceilings in hard to reach areas. Diverter captures drips from ceilings up to 15' high without risk of splash-out; use included mat pad to catch splashes from ceilings higher than 15'. Adjustable telescoping pole allows easy installation without the need for a ladder. Included pail has a removable plug to allow the drainage hose to be inserted without removing the lid.

Diverter can extend up to nine feet...

...and collapse to four feet.

PIG® High Reach Roof Leak Diverter Tarp Kit

| Item # | 1-4 | 5+ |
|--|--------------|--------------|

DO I NEED A LID OR A FUNNEL?

PIG LATCHING LIDS

Safely cover drums of solid waste without the fuss of a nut and bolt ring.

- Quick, easy access helps keep contents dry and secure
- One-hand latch makes it easy to add to drum contents and helps you comply with regs
- Nitrile gasket and locking mechanism seal lid to help reduce vapors and protect contents

PIG BURPLESS FUNNELS

Our patented funnel designs help you pour quickly and safely.

- Burpless vents allow fast pouring without venting through $\frac{3}{4}$ " bung
- Easy-access design helps you meet closed container regs and minimize vapors
- Nitrile gasket and locking mechanism seal drum funnel lid to reduce vapor emissions

HELPS YOU COMPLY

40 CFR 264.1086(c)(1)(ii) Requires haz waste containers to be sealed to prevent VOC emissions

40 CFR 262.16(b)(2)(iii) and 262.17(a)(i)(iv) Require haz waste containers to be kept closed

40 CFR 262.15 Requires containers in satellite accumulation areas to be kept closed

PRO TIP: If you find that you need lids and funnels to comply, you might need a Spill Containment Pallet, too! (See page 115)

JUST
ONE
HAND!

PIG LATCHING DRUM LIDS

One-hand access makes it easy to meet haz waste regulations.

Did you know that if you take the lid off a drum storing haz waste and don't put it back on, you're violating the EPA's closed container regulations? PIG Latching Drum Lids make compliance a breeze. They open and close with one hand, freeing up your other hand to add waste (or juggle chainsaws if that's your thing). Nitrile gasket and locking mechanism seal lid to help reduce vapor emissions and keep contents dry and secure.

HELPS YOU COMPLY with regulations listed on page 97

Fast-latch ring (on select models) makes installation easy on new or reconditioned steel drums.

Removable hinge pin lets you remove the lid without loosening the band.

Adjustable tension means the latching handle will close properly every time!

DRM1072

DRM659

DRM167

DRM1033

"Getting a whole plant full of employees to follow compliance requirements is often difficult. This product takes away the issue of drums never being closed which is one worry off my back."

— Dawn, DRM1072 Customer

PIG LATCHING DRUM LID – FAST-LATCH RING

Fast-latch ring makes installation easy on a new or reconditioned drum; no clumsy nut-and-bolt ring. Adjustment rod lets ring expand to fit drums with larger diameters. Two lid sizes available for different sizes of drum, plus three color choices to help you segregate waste.

PIG IBC TOTE FULL-TOP FUNNEL

Easy-reach funnel completely covers the top of your IBC.

NEW! Covers entire top of IBC and molded-in ridges prevent funnel from sliding off. Fits 275- and 330-gallon IBC totes with centered openings from 4" to 6". It's easier to use than standard funnels because it eliminates awkward reaching/leaning or keeping a step nearby. Level ridges run across a sloped surface for easy draining of containers, parts or filters while double-wall polyethylene construction resists UV rays, corrosion and most chemicals.

Leave filters and containers to drain while you complete other tasks.

PIG® Poly IBC Tote Full-Top Funnel

| Item # | 1-4 | 5+ |
|---|-------|-------|
| IBC600 • Funnel • 40.7"W x 49.5"L x 5.5"H | \$270 | \$257 |

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

Integrated sloped channels allow for effortless high-volume pouring.

IBC600

Need to filter large debris from the liquid you're pouring? Just add our disposable filter pads (one included with funnel; replacements sold separately).

IBC601

PIG BURPLESS POLY FUNNEL

Keeps on chugging without burps or splashbacks.

Burpless design vents during pouring with no splashback; lets you pour without having to vent through ¾" bung. Designed for use with nonhazardous liquids: coolants, non-flammable oils and water-based liquids.

NOTE: Does not meet closed container regulations.

PIG® Burpless® Poly Drum Funnel

(Specify Lid Color: Black Red Yellow)

| Item # | 1-4 | 5+ |
|---|-------|-------|
| DRM1680 • Standard w/Overfill Preventer • For 30- and 55-gal. Steel or Poly Drums w/ 2" NPT • 13.5"W x 16.25"L x 13.9"H | \$104 | \$97 |
| DRM1681 • Standard w/Overfill Preventer • For 30- and 55-gal. Poly Drums w/ 2" Buttress Thread • 13.5"W x 16.25"L x 13.9"H | \$119 | \$114 |
| DRM138 • Large • For 30- or 55-gal. Steel or Poly Drums w/ 2" NPT • 19.5"W x 22"L x 11.5"H | \$150 | \$143 |

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

* **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

DRM1680

Optional built-in overfill preventer acts as a shutoff

★ = Best-Seller

Overfill Preventer stops flow when drum is almost full; helps avoid messy overfills (on select models only).

BURPLESS FUNNELS

Clean pouring, no splashback and a one-hand latch for easy compliance.

Patented Burpless design lets you pour without having to vent through $\frac{3}{4}$ " bung — a possible closed container reg violation if left open. Lockable latching handle opens and closes lid with one hand. Nitrile gasket and locking mechanism create a vapor-tight seal.

HELPS SMALL AND LARGE QUANTITY GENERATORS COMPLY with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(i)(iv) requiring haz waste containers to be kept closed

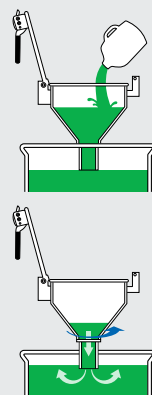

HELPS YOU COMPLY with 40 CFR 262.15 for containers in satellite accumulation areas

HELPS YOU COMPLY with 40 CFR 264.1086(c)(1)(ii) for VOC emissions

HOW THE OVERFILL PREVENTER WORKS

(INCLUDED ON SELECT MODELS)

1. When liquid level reaches the bottom of preventer, funnel stops draining and starts to fill up, so you know when to stop pouring.
2. Air trapped between inside of drum and outside of tube stops liquid from rising.
3. To empty funnel, twist funnel and preventer counterclockwise and slowly lift to drain contents into remaining airspace.

PIG ORIGINAL BURPLESS FUNNEL

Our original bestselling drum funnel is great for your everyday pouring needs.

PIG LARGE BURPLESS FUNNEL

Wide-mouth funnel has more volume for larger draining and pouring jobs — you can empty a 5-gallon pail in 17 seconds!

Sturdy, coarse mesh screen (DRM1203) holds heavier containers and parts for draining.

PIG SMALL BURPLESS FUNNEL

5" -diameter fill mouth limits vapor, odor and VOC emissions.

PIG STAINLESS STEEL BURPLESS FUNNEL

Resistant to acetone, methyl ethyl ketone (MEK), toluene and other chlorinated solvents and harsh chemicals.

OPEN-HEAD POLY DRUM

Store and ship solid waste in these UN Rated containers.

Rigid, lightweight high-density polyethylene won't rust and is compatible with many chemicals. UN Rated for storage and transport of solid hazardous materials, and lever lock band can be wire sealed to prevent tampering. DRM1147, DRM386 and DRM385 are made from FDA-Compliant resins for containment of food and cosmetic products. Straight-sided drums (DRM1059, DRM1060) have ribs for extra strength; allows broader use of drum grabs, parrot beak lifters and other equipment that can't move tapered drums.

UN RATED STEEL DRUMS

Choose the size, style and lining you need.

UN Rated and tested to help ensure safe shipping of hazardous materials. Optional phenolic/epoxy lining adds corrosion resistance.

OPEN-HEAD DRUMS

Made for liquid or solid hazardous waste. Removable lid offers full access to inside of drum. 12-gauge bolt ring closure, sponge rubber gasket and plated bolt/nut (on all except DRM837) provide tight seal. Quick-style lever lock rings (DRM837) help you comply with closure regs; no tools required and shippable "as is." DRM1973 features 2" NPT and 3/4" NPT bungs.

TIGHT-HEAD DRUMS

A great choice for storing or shipping liquids. You can rely on them to deliver safety and compliance. Tight-head design is equipped with 2" NPT and 3/4" NPT bungs.

RECONDITIONED STEEL DRUMS

Need steel drums, but don't need brand new?

Whether you use drums for shipping or storage, these reconditioned 55-gallon steel drums will help you save money. They're cleaned, inspected, tested, quality assured and given a fresh coat of black paint. They're also guaranteed to meet or exceed the updated UN rating. You can get them with a phenolic/epoxy lining or unlined.

RCN100

Reconditioned Steel Drums

(Specify: Lined or Unlined; Add \$11 to price shown for Lined)

| Item # | Drum Size (gal.) | Lid Type | Bung Size | Thickness | UN Rating | 1-4 | 5+ |
|--------|------------------|------------|-------------------|-------------|----------------|-------|-------|
| RCN100 | 55 | Tight-Head | (1) 3/4" & (1) 2" | 1.2/1.1/1.2 | UN1A1/Y1.2/100 | \$104 | \$93 |
| RCN101 | 55 | Open-Head | n/a | 1.1/0.8/1.1 | UN1A2/Y1.2/100 | \$126 | \$115 |
| RCN102 | 55 | Open-Head | (1) 3/4" & (1) 2" | 1.2/1.1/1.2 | UN1A2/Y1.2/100 | \$128 | \$117 |

Reconditioned drums are not brand new so their appearance will vary. Each will have minor visible imperfections that do not affect performance, such as scratches, small dents, and variations in finish. These drums may also be downgraded from their UN Rating when brand new (shown as a permanent embossment on the bottom). A durable mark (shown as either a stencil or label on the drum) is the current UN rating for the reconditioned drum.

★ = Best-Seller

POLY IBC TOTE

Replace multiple drums with just one tote.

Blow-molded HDPE tank is chemical resistant and made from FDA-Compliant resins for containment of food and cosmetic products (must be cleaned prior to use). Four-way forklift entries let you stack units up to four high to save space.

Caged models have a 2" butterfly valve with outlet nozzle for controlled dispensing.

Rebottled caged models have a brand new bottle; steel cage and composite plastic-and-steel pallet are reused. Valve type may vary.

FLAMMABLE SAFETY CABINETS

PIG Safety Cabinets offer security backed by a lifetime warranty.

If you use flammable liquids, the best way to keep people safe is to store those liquids in a Flammable Cabinet. A PIG Safety Cabinet keeps dangerous flammable liquids away from ignition sources that can create fires or explosions, plus they make auditors happy.

- FM Approved for the storage of flammables plus meets NFPA and OSHA specs
- Fully MIG-welded 18-gauge steel body
- Three-point zinc latch ensures fail-safe, nonsparking door closure
- Secure the door with built-in lock and included keys or use your own separate lock
- Air-insulated double wall construction, flame arrestor vents and grounding connection minimize fire risks
- Adjustable shelves on welded hanging tabs hold up to 270 lbs. UDL

- Leakproof sump contains drips and spills
- Powder-coat finish resists corrosion
- Leveling feet can be adjusted for stability

NOTE: OSHA codes state that no more than 60 gallons may be Category 1, 2 or 3 flammable liquids, and no more than 120 gallons may be Category 4 flammable liquids. Cabinets are for indoor use only.

If you're not happy with your New Pig purchase, we'll refund every penny, including taxes and shipping. Even the return freight is on us!

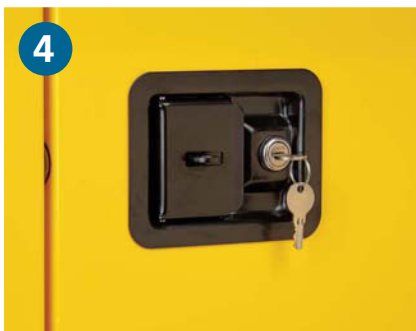

Self-closing models have a fusible link that melts in a fire; allows you to prop doors open.

Shelves are adjustable and hold up to 270 lbs. UDL.

Three-point zinc latch ensures spark-free closing every time.

Door can be locked with included keys or use your own padlock (not included).

PAK249

WASTE OIL TANKS

Store up to 500 gallons of waste oil in strong steel tanks.

Waste Oil Tank's bulk capacity eliminates multiple small containers and centralizes waste oil storage. Double-wall, 10 gauge steel construction helps tank withstand impact and provides leak-tested containment. 10"-diameter fill hole features a lockable hatch and debris screen; 2" vent helps prevent pressure buildup. Tank has a durable powder coating to resist chipping, rust and corrosion and includes individual ports. Tanks exteriors are fully labeled for easy identification.

NOTE: Not intended to be used as storage for new oil.

PIG REG TIP

MAKE USED OIL USEFUL AGAIN — RECYCLE IT!

One gallon of used oil produces 2.5 quarts of high-quality lubricating oil, and a bulk collection area makes it easy to recycle it.

SPILL CONTAINMENT

NOBODY STACKS UP TO PIG.

Andy B. —
Product
Manager

Designed and tested PIG tough.

Containment products are your last line of defense against nasty liquids — so failure is not an option. That's why we tend to go a little overboard with our product testing.

Extreme measures

We built the hulking machine shown here to push the limits of our decks and pallets. It can easily simulate your real-world jobs, but we crank up the pressure and keep it there for months to ensure performance when it counts. So whatever you do to your PIG Pallets, we've punished them even worse.

Don't waste your money on products that can't handle the pressure. PIG Decks and Pallets are designed, tested and guaranteed not to fail.

You can't buy a stronger pallet or deck.

OURS PASS

PIG GRATES TAKE THE PRESSURE

Our compression tester simulates long-term, full-capacity drum storage.

PIG passes with flying colors!

THEIRS FAIL

OTHER BRANDS BEND AND BOW

Anything less than level is an accident waiting to happen. Why risk it?

Play it safe with PIG!

HELPS YOU COMPLY

40 CFR 264.175

Secondary Containment Regs require full containment for haz waste to prevent releases into the environment. Full containment is 100% of the largest container or 10% of the total volume, whichever is greater.

40 CFR 122.26

Stormwater Regs require facilities with an SWPPP to describe the plan and equipment to prevent illegal discharge of pollutants into waterways

40 CFR 112.7

SPCC Regs require written plans and documentation of the products that are in place to prevent discharge of oil into waters

Two-way forklift entry

PIG POLY SPILL PALLETS

PIG-tough Pallets catch leaks, drips and spills to help you meet regulations.

How are Pallets different from Decks? Pallets are best when: you need full containment; you need to move your containment with a forklift; or you don't have enough floor space to build a modular system.

All PIG Spill Containment Pallets feature molded-in sumps to catch escaped liquids and keep your storage areas clean and safe. Low-density polyethylene construction resists UV rays, rust, corrosion and most chemicals. Textured grating adds traction and lifts out for easy sump access. Choose from three models to suit your needs.

HELPS YOU COMPLY with regs listed on opposite page

HEAVY-DUTY PALLETS

The only pallets strong enough to be moved by forklift with drums in place (MUST be strapped down). Engineered for long-term storage of liquids with high specific gravities.

STANDARD-DUTY PALLETS

The perfect blend of strength and savings for everyday drum storage. Holds fully loaded steel or poly drums without sagging.

ECONOMY PALLETS

These pallets may be economical, but they're strong enough to store fully loaded steel drums (not recommended for long-term storage of poly drums).

Poly and steel loading ramps sold separately. Search PAK603, PAK734 and PAK989 at newpig.com.

PAK241

PIG STEEL SPILL CONTAINMENT PALLET

Designed for secondary containment of flammable liquids.

Durable, 12-gauge steel can be bonded and grounded to control static electricity and prevent sparking while transferring or storing flammable liquids. Catch leaks and spills to help you comply with regs, and empty the sump without removing drums thanks to the ½" NPT drain plug. The powder coating guards against rust and corrosion.

HELPS YOU COMPLY with regulations listed on page 114

PAK523

PAK525

Deck captures small spills and leaks. Bladder stays rolled up behind trap door until sump is full and then deploys automatically.

PIG BLADDER POLY CONTAINMENT DECK

Roll out 55 gallons of additional sump capacity!

Modular design features exclusive bulkhead fittings and predrilled ports to connect to other decks, and patented "flow-through" sump design lets liquid pass freely from the sump to the bladder to help you comply with containment regs. Integrated bladder box provides an extra 55 gallons of containment and translucent white side walls allow easy visual inspection. Full bladder deployment requires clearance of 66"W x 58"D in front of deck. Polyethylene construction resists UV rays, rust and corrosion. Replacement Bladder (PAK525) recommended after bladder is used, and loading Ramp (PAK726) sold on opposite page.

HELPS YOU COMPLY with regs listed on page 114

PIG POLY DRIP & SPILL DECKS

Practice good housekeeping with low-profile, easy-to-load Decks.

How are Decks different from Pallets? Decks are best when: you're storing drums of non-hazardous liquids; you need to store smaller containers in full compliance; or you need low-profile easy access.

PIG Poly Decks are built PIG-tough but with lower profile designs and smaller sump capacities. Strong enough for storing steel or poly drums, easy to load and unload, pumps and funnels are easy to reach.

POLY MODULAR SPILL DECK

Want low-profile storage AND full containment? Build a Modular Spill Deck! Patented "flow through" sump design lets you mix and match sections to fit your space and build up to your required sump capacity.

HELPS YOU COMPLY with regs listed on page 114 (depending on size of haz waste containers stored)

Patented bulkhead fittings let liquids flow from one deck to another. (Modular Spill Decks only)

* ⚠️ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

PIG UTILITY TRAY

Keep your greasy parts and leaky containers in a durable spill tray.

Thick-wall, chemical-resistant polyethylene won't bend or warp, and ribs on bottom add strength and elevate parts to keep them away from trapped liquids. They're ideal for storing liquids, granules or powders that may leak, drip or cause contamination if they reach the ground, plus they're stackable to store easily when not in use. PAK112 is designed to fit on top of a pallet for easy mobility with a forklift, and 40" x 48" pallets can also be placed inside of tray.

PAK112

POLYETHYLENE TRAY

Store small parts or capture leaks and drips from containers.

NEW! Rotationally-molded trays are ideal for applications that would compromise injected or thermoformed trays.

Modular design allows efficient use of space on benches or shelves while the light color makes it easy to see screws, springs and other small parts. All-polyethylene composition won't rust or corrode and resists most chemicals. PAK849 has ribs on bottom for added strength; all others are flat. More sizes available at newpig.com.

PAK601

ROLL TOP SPILL PALLETS

Protect your drums from the elements using our roomy roll tops.

Without containment, your leaks and spills are direct contaminants to the environment. Our roll top slides up for easy access to drum tops while the rest of the unit stays closed. Low-profile pallet with sump catches leaks while keeping drum tops and accessories within reach. Weather-resistant design prevents contaminants from entering stormwater, and heavy-duty construction allows unit to be lifted by a forklift with drums in place. Polyethylene with UV inhibitors resists UV rays, rust, corrosion and most chemicals. Optional .75" drain plug lets you empty the sump without removing drums or grating. Doors and roll top can be secured with padlock (LCK901 and LCK902 sold separately at newpig.com).

HELPS YOU COMPLY with 40 CFR 264.175 for storage of haz waste (except DRM828)

HELPS YOU COMPLY with 40 CFR 112.26 Stormwater Regulations

DID YOU KNOW?

28% OF AT-RISK DRAINS ARE WITHIN 20 FEET OF STORED LIQUIDS.

Sometimes you can't help it when liquids are stored near drains, but being prepared to properly respond to spills can help reduce the hazards of at-risk drains in your facility. Roll Tops are a great solution to preventing liquid releases outdoors.

Data provided by our patented Spill Risk Algorithm.

New Pig shall not be subject to and disclaims: 1) All obligations or liabilities arising out of breach of contract or of warranty, 2) All obligations whatsoever arising from tort claims (including negligence and strict liability) or arising under other theories of law with respect to products sold or services rendered by New Pig or any undertakings, acts or omissions relating thereto, and 3) All consequential, incidental and contingent damages whatsoever.

All Products Not Manufactured by New Pig: For complete product information, including disclaimers, please visit the product manufacturer's website.

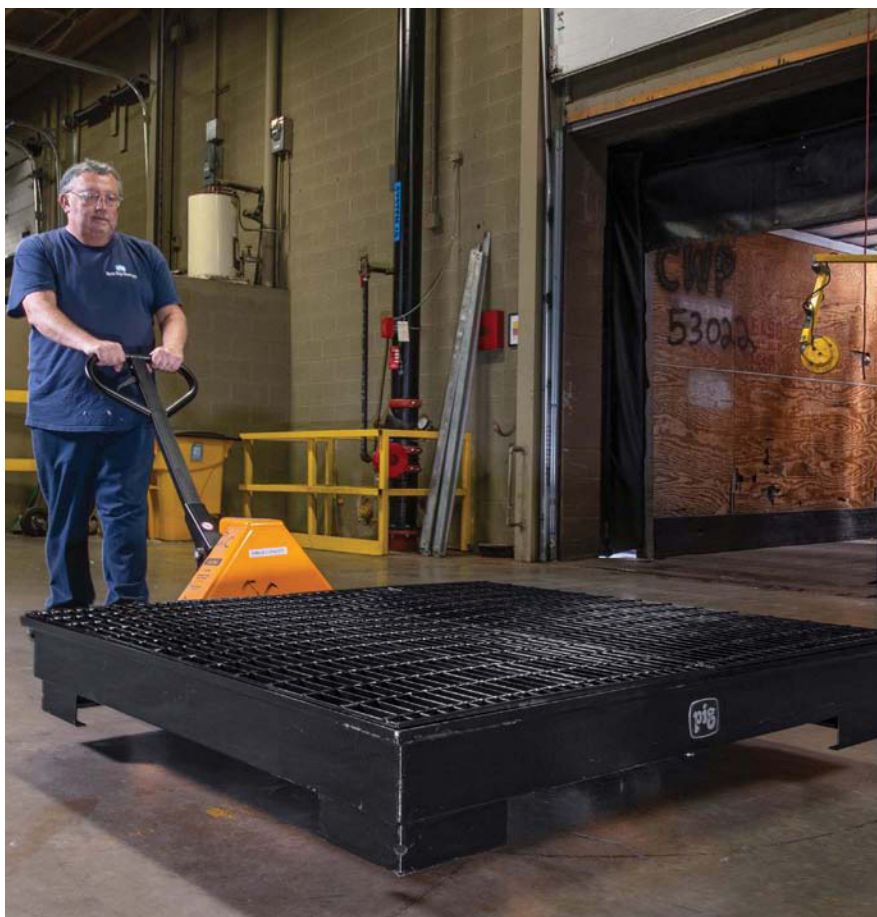

Prices: All published prices are in U.S. dollars and must be paid in U.S. dollars. In the event of a printing error, New Pig reserves the right to charge the correct price. New Pig works hard to maintain prices, but they are subject to change due to market conditions.

Terms: These terms and conditions shall constitute the entire agreement between New Pig and the purchaser, and shall be governed by and construed according to the laws of the state of Pennsylvania and the United States of America.

OSHA Hazardous Substance Product Information: Safety Data Sheets are enclosed with all orders where required. If you would like a Safety Data Sheet prior to order, please call customer service at 1-800-468-4647.

Attention Distributors: If you hold integrated supply contracts with your customers and would like to provide New Pig Products to them, give us a holler. You may qualify for special pricing. Please call our Integrated Supply Team at 1-800-328-2464.

Offers expire in 30 days.

PIG STEEL IBC TOTE DRIP DECK

Steel deck is ideal for storing flammables.

NEW! Durable 12-gauge steel is powder coated for extended life. IBC can be bonded and grounded for safer storage of flammables. Grating is removable for easy cleanup, and included 1/2" NPT drain plug lets you empty sump without removing tote. Move from any direction (unloaded only) with four-way forklift access.

GROUNDING WIRES AVAILABLE
AT NEWPIG.COM.

| PIG® Steel IBC Tote Drip Deck | | | PIG |
|---|---------------|---------------|-----|
| Item # | 1-4 | 5+ | |
| IBC102 • Holds (1) IBC • 66 gal. sump capacity • 5,000 lb. load capacity 55.25"W x 55.25"L x 8.75"H | \$1426 | \$1404 | |

PIG POLY IBC TOTE DRIP DECK

Protect floors by catching small IBC leaks with this drip deck.

NEW! Molded-in sump catches leaks, and optional 3/4" drain plug allows emptying of sump without removing IBC or grating. Polyethylene construction resists UV rays, rust, corrosion and most chemicals. Low-profile design provides convenient access to pumps and funnels while four-way forklift entry allows movement from any direction (if loaded, IBC must be properly secured).

| PIG® Poly IBC Tote Drip Deck | | | | PIG |
|---|--------------|--------------|--------------|-----|

| Item # | 1-2 | 3-6 | 7+ | |
| IBC103 • Holds (1) IBC • 75 gal. sump capacity 9,000 lb. load capacity • 62.5"W x 62.5"L x 8.75"H | \$621 | \$600 | \$587 | |

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

PIG POLY IBC ROLL TOP HARDCOVER PALLET

Store totes outdoors and meet EPA standards.

Provide protected storage and liquid containment for IBCs up to 52" L x 52" W x 53" H. Weather-resistant design prevents contaminants from entering stormwater and polyethylene construction with UV inhibitors resists UV rays, rust, corrosion and most chemicals. Durable rolling cover and swing-out doors on both sides provide easy access, and two-way forklift entry allows easy movement (unloaded only). Available with or without drain plug. Economical "twin" design shares interior wall to reduce complexity and save money over purchasing two single units.

PAK1598

Optional belting helps protect containment berm from sharp debris collected in tires. See newpig.com for information.

Hinges can be locked in place as a backup to the self-rising function.

Endwalls rise with the liquid level for round-the-clock protection.

Heavy-duty hinges are tough enough to withstand vehicle traffic.

PIG SELF-RISING CONTAINMENT BERM

Endwalls rise with a leak or can be locked in place.

Endwalls can remain folded down during use, but they automatically rise with the liquid level when a leak occurs. Heavy-duty hinges can be locked into place when snow, hoses or other heavy objects could prevent the flotation system from functioning. Folds to a compact size to let you store the system in a vehicle and transport it to a remote location, and included strap secures unit in place. Constructed of durable 30 oz. co-polymer geomembrane to resist chemicals, abrasion and tearing, plus grommets at each support hinge allow unit to be staked to the ground when needed. Ideal for use under storage tanks, pillow tanks, pallets loaded with drums and more. Custom sizes and colors available by calling 1-800-HOT-HOGS (468-4647).

PAK721 + PAK354

PIG COLLAPSE-A-TAINER LITE

Lightweight containment is easy to store, handle and deploy.

A great way to provide portable containment — no assembly required. Durable 18 oz. vinyl is chemical resistant, lightweight and easy to handle. Portable containment berm folds to a compact size for carrying or storing. 8" sidewalls are the perfect "step-over" height which is ideal for use as a decon station, and the optional grate elevates the area inside the containment berm.

PAK936

PIG FLEXBERM CONTAINMENT PAD

Roll right over the soft walls for easy washdowns or containment.

Pliable, 2"-high foam sidewalls contain liquids and spring back to shape after you roll over them. Double-layer, 18 oz. vinyl bottom resists chemicals, punctures and tears, and one-piece construction deploys in seconds with no assembly required. It's portable, lightweight and easy to store when not in use. 1/2" grommets on each corner help keep the berm in place. Deck Grate (see opposite page) with raised-profile and antislip grating adds traction and allows draining.

HELPS YOU COMPLY with regulations listed on opposite page

Open-cell foam sidewalls spring back to shape.

PIG TANK CONTAINMENT SUMP

Great for oil tanks, indoors or out.

Safely stores up to 1,000-gallon oval tanks with no measuring or guesswork required. Extra-large sump contains leaks, spills and overfills plus helps prevent groundwater contamination outdoors and slippery floors indoors. Low-density polyethylene resists UV rays, rust, corrosion and most chemicals for a long, troublefree life. Choose either 3/4" or 2" drain plug for convenient emptying; also available without drain. Use with tarp (sold separately at newpig.com) to prevent accumulation of rainwater outdoors.

PIG SPILL CONTAINMENT POOL

Store in your vehicle to be prepared for spill emergencies on the road.

Ideal for quick deployment to catch the contents of blown hydraulic lines, punctured tanks, leaking containers and decontamination operations. Heavy-duty, 18 oz., vinyl-coated polyester provides high resistance to tears and punctures. Deploys instantly for use in an emergency, and rim has foam ring that rises with level of liquid contained. Pliable material folds easily for storage on a truck or emergency response vehicle.

BILL HAS BEEN TESTING THE COMPETITION FOR 31 YEARS!

Bill H.
Market Insights

He's found that other brands cut corners in these five sneaky ways (AKA shrinkflation).

- ✗ **Smaller sizes:** Trimming a pad by 10% reduces material cost but also reduces absorbency
- ✗ **Lower quality:** Cheap fillers compromise performance and chemical compatibility
- ✗ **Rushed production:** Creates inconsistencies like voids, hard flecks and high lumps
- ✗ **Overlofting:** Reducing material by injecting air diminishes absorbency and retention
- ✗ **Misleading specs:** Published specs are accurate in lab settings but don't reflect actual use

PIG MAT LIVES UP TO ITS PROMISES!

Nobody beats the quality, engineering, or performance of the World's #1 Mat Brand. To make sure our claims translate to real-world performance, we conduct regular testing, following strict ASTM and ISO standards. Our expectation: for every PIG Mat to do what we say it will do.

✓ BASIS WEIGHT TEST

ASTM D3776 We measure basis weight per square yard which helps to ensure that real-world absorbency matches our specs.

✓ BULK (LOFT) TEST

ASTM D1777 We check the thickness of PIG Mat to 1/1000 of an inch. This level of tolerance helps regulate loft to produce consistent material for superior retention.

✓ TENSILE STRENGTH TEST

ASTM D5034 Force transducers stretch our mat until it pulls apart, far exceeding the rigors of real-world abuse.

✓ OIL/WATER CAPACITY TEST

ASTM F726-17 and ISO 20158:2018 PIG Mat is soaked in DTE 24 hydraulic oil for 15 minutes then hung for drip-out, with weight measured before and after.

✓ RECIPROCAL ABRASION TEST

ASTM D3884-22 The Reciprocal Abrasion Testing (RAT) Machine creates back-and-forth friction to gauge a mat's scuff resistance.
